Take TV Viewers On 'Tour Of Spaceship'

Apollo 7 Spacemen Speed On Downhill Leg Of Trip

SPACE CENTER, HOUSTON (AP) — The Apollo 7 astronauts, eager to come home, took television viewers on a matter-of-fact tour of their smooth-running spaceship today as they sped on the downhill leg of their marathon space voyage.

Navy Capt. Walter M. Schirra Jr., Air Force Maj. Donn F. Eisele and civilian astronaut Walter Cunningham took time from the demanding chore of checking the many complex systems of their craft to beam Episode No. 4 of the Wally, Walt and Donn show to earth as Apollo 7 swept south of the southern United States.

In contrast to the first two televised shows, when there were many hijinks and funny signs, today's 12-minute episode was a very sober affair.

Reception also was the worst yet, as the picture on the screen split and rolled many times. But generally the pictures were excellent.

The astronauts started to tone down the show Wednesday, reportedly on orders from high Space Agency officials who objected to the fun-and-games aspects of the show.

The closest thing to a joke was when Schirra, floating in weightlessness, described the movement as being "like kind of a monkey moving around its cage."

In a demonstration of weightlessness, he blew a floating pencil around the cabin with his breath.

Holding the camera, Schirra first focused on a window and commented, "We're looking over the commander's seat now. You can see the sun coming into the window."

Then he panned around the cabin, showing the instrument panels, crew couches and sleeping area.

He concentrated on two of the spacecraft windows, hoping to show the Mission Control Center some of the debris that has collected on the pane, causing some sighting problems.

At one point he momentarily dropped the camera, and one of the astronauts said, "That's a good example of Zero G."

Following the show, the astronauts settled down to exercising over and over the many systems of the 15-ton craft which has more than two million functioning parts.

On tap for the day were guidance and navigation checks, star readings with the sextants and weather and terrain photography.

Although the flight has been

Targets In North Bombed

SAIGON (AP) — American fighter-bombers kept up their attacks on North Vietnam's southern panhandle today and more raids were scheduled for Friday amid recurring reports that the United States is considering a complete halt in the bombing of the North.

U.S. Air Force and Navy warplanes continued attacking trucks, supply boats, highways, bridges and other lines of communication below the 19th parallel bombing boundary set by President Johnson last spring.

In raids over the North Wednesday, Air Force and Navy pilots flew through northeast monsoon rains and overcast skies to smash more than 30 enemy supply boats and trucks, military spokesmen said.

Reports of an American proposal to end all air attacks on North Vietnam circulated Wednesday after U.S. Ambassador Ellsworth Bunker met twice with South Vietnamese President Nguyen Van Thieu, presumably to sound Thieu out.

The U.S. Mission refused to comment on the talks, but a spokesman said Bunker had another meeting with Thieu scheduled today.

Reports from Washington said President Johnson is awaiting assurances from Hanoi that a halt to the bombing will result in prompt new Communist steps toward peace.

Continuation of the lull in the ground war added to speculation that Hanoi may be de-escalating as part of a secret agreement in the works, an agreement that would include a bombing halt.

For the second successive day, the U.S. Command did not report a single ground action in its morning communique.

The South Vietnamese military command reported heavy fighting on the eastern end of

Jaycees And Kent Slate M.A. Use For Recreation

The East Liverpool Jaycees and officials of Kent State University Academic Center have reached an agreement under which the Jaycees will operate a community recreation program at the Memorial Auditorium starting Sunday.

Joe Smith, chairman of the Jaycee project, and Charles Lang of the organization said the Auditorium will be open Sundays from 1 to 4:30 for basketball playing.

From 1 to 2:30 p.m. the program will be for youngsters up to 13-years-old. The remaining two hours will be for all age groups, Smith said.

A 50-cent charge will be made for those in the elder group to provide for funds to pay a custodian, Smith explained.

Locker and shower facilities will be available.

Smith said the Jaycees plan to operate the M.A. under an expanded program later.

The arrangement is for the Jaycees to be responsible for the building's recreation program until city voters decide on a proposed half - mill recreation levy in the Nov. 5 general election.

The Jaycees will provide supervision Sunday. Later, plans are being made to add other programs for week nights.

Smith said, "A citywide recreation program is vital for the community's young people and for citizens of all ages. It is important for all voters to consider the increased effective-

LBJ Faces New Trouble In Bid To Halt Bombing

Action Aimed To Move Deadlocked Peace Talks Ahead

By JOHN M. HIGHTOWER

WASHINGTON (AP) — President Johnson apparently has run into difficulties in both Hanoi and Saigon in his efforts to arrange final terms for an end to the U.S. bombing of North Vietnam.

Before ordering a bombing halt, U.S. officials said, Johnson is determined to receive North Vietnamese assurances his action will move forward the deadlocked Paris peace talks and freeze the level of combat in South Vietnam.

No Word Of Assurances

There still has been no word here of those assurances.

South Vietnamese leaders are reported meanwhile to have refused to sign a joint declaration proposed by the United States on halting the bombing.

President Nguyen Van Thieu is said to have several objections, among them that there should be no end to the bombing of the North unless Hanoi gives firm guarantees it will not escalate the war.

U.S. Ambassador Ellsworth Bunker, who met with Thieu three times Wednesday, met again with the South Vietnamese president today, presumably in an effort to iron out the difficulties.

Johnson administration leaders generally sought to keep bombing-halt negotiations secret. But information available in official quarters here is focused on the problems with North Vietnam.

Moon Within U.S. Reach, Apollo Shows

SPACE CENTER, Houston (AP) — The Apollo 7 astronauts have demonstrated America can reach toward the moon without further delay.

Barring unforeseen problems in Apollo 7's final days, the mission—more than half-completed—has shown that:

—No major, time-consuming changes need be made in future Apollo spaceships.

—Although Apollo 7 is the first manned flight of an Apollo craft, the complex moonship has been free of major troubles.

—Redundancy in spacecraft systems is excellent. When something prevents feeding data into the flight computer one way, for example, the Apollo 7 crew has been able to use another method.

—The worldwide ground tracking network can rapidly gather the great volume of data needed on a man-to-the-moon mission.

"Were we to re-enter now, we would have accomplished slightly in excess of 75 per cent of all the things we laid out to do," Glynn Lunney, Apollo 7 flight director, said Wednesday.

"I have seen nothing in the data so far that would require major change in spacecraft, but we must reserve any additional comment until we have safely recovered the spacecraft and examined it in detail," said Dale Myers, vice president and Apollo program manager for North American Rockwell Corp.'s space division, builder of the Apollo spacecraft.

Apollo 7 has shown the spacecraft can rendezvous with a target, as it must do on the lunar landing mission. The spaceship's life-support system already has kept Apollo 7's crew alive within three days of the time needed for a moon trip.

Shares New York Platform With LBJ, Nixon

Humphrey Admits Lags In Polls, But Predicts Hair Breadth Victory

By The Associated Press

Democrat Hubert H. Humphrey acknowledges he trails Republican Richard M. Nixon in the presidential race polls now but says he has picked up the winning momentum for a "hair breadth" victory in November.

"We'll give you the biggest surprise in many, many years," he said in St. Louis Wednesday.

Humphrey shared the platform with Nixon and President Johnson at a New York dinner Wednesday night and said he takes heart from Harry S. Truman's comeback victory 20 years ago.

"I have to," the Democrat said.

The President and the two men seeking his job made speeches and traded political jokes at the Alfred E. Smith memorial dinner but there was no flavor of a Nixon-Humphrey debate.

Humphrey has been pressing for such a debate and he said he was "pleased my friend Mr. Nixon is on the same platform with me, almost within camera range."

Nixon praised Johnson as the hardest working president of this century and one who is devoted to peace and deeply concerned about the welfare of the 500,000 Americans in Vietnam.

Johnson, using a phrase that had come up in third party candidate George C. Wallace's campaign, said the plight of the deprived and minorities cannot be "kicked under a rug or run over by a car.

Humphrey's prediction of a hair breadth victory got some support earlier in the day from Louis Bean, almost the only voting analyst of standing who predicted Truman would win in 1948.

Bean, speaking in Washington, said he calculates Nixon and Humphrey are running about 50-50.

If the polls are right, Bean added, Nixon shows about the same kind of lead at this point that Truman wiped out 20 years ago.

Nixon, in the first of 10 nightly radio speeches, said Wednesday night he could help close the generation gap in America and said young people, even strident dissenters, must be listened to.

"Not because we want to pat ourselves on the back for permitting protest," he added, "but because the protestors may have something to say worth listening to."

Nixon said more college students should be drawn into community service and proposed creation of a Youth Service Agency in Washington to coordinate youth programs.

He repeated his goals, if elected, of lowering the voting age to 18 and eventually replacing the draft with a volunteer army.

American Independent candidate Wallace began a lengthy

Pullout Soon, Says Kosygin, But Some Slated To Remain

PRAGUE (AP) — Soviet Premier Alexei N. Kosygin said Wednesday night most of the occupation troops in Czechoslovakia will withdraw soon, but he did not indicate how many will stay.

Kosygin said the withdrawal will include troops of Poland, Hungary, East Germany and Bulgaria, the four East bloc nations that joined in the Soviet invasion of Czechoslovakia Aug. 20 to reverse the country's liberalization drive.

Kosygin spoke at the signing of a treaty with Premier Oldrich Cernik legalizing the Soviet occupation. His speech was reported by the Soviet news agency Tass.

Anticipating further criticism of the Soviet Union because of the treaty, Kosygin urged Communist unity to combat this.

"The enemies of socialism will fume and rage," he said. "They will try to distort the meaning of our treaty and to aggravate international tension. The enemies of Czechoslovak-Soviet friendship want nothing

'Gladys' Threat To Tampa Eases

MIAMI, Fla. (AP) — Hurricane Gladys, killer of at least one person in a stormy crossing of Cuba, began veering toward the northwest in the Gulf of Mexico today and her threat to the million-plus population area of Tampa Bay weakened.

A hurricane hunter pilot detected the change in course as he thrust his plane into the eye of the storm 130 miles south-southwest of Tampa and 200 miles west of Miami.

Threat Would Lessen

If the new course is maintained, forecasters said, the threat to the Gulf Coast cities of Tampa, St. Petersburg, Bradenton, Sarasota and Clearwater would "lessen considerably."

Cuba's National Weather Service, giving no details, said one person died as Gladys dealt the island a one-two punch of wind and rain that heavily damaged crops and property and drove 4,000 Cubans from flooded Uand undermined homes.

Late-blooming Gladys, meanest of the 1968 tropical storms, was being nudged slightly to westward by developing high pressure zone east of Florida. This kept her a little farther out in the Gulf than the forecast track.

Her highest winds of 90 miles an hour were confined to a small area near the center, but during the night Gladys hurled 65 m.p.h. wind gusts clear across Florida into sleeping Miami Beach. Palm fronds littered

Showers put a damper today on the district's balmy temperatures and the weatherman said more rain is due tonight and Friday.

Congress Calls It Quits

The 90th Congress finally backed through the adjournment door and ended its controversial current session.

As is usual, U.S. lawmakers have been criticized for legislation they approved and what they failed to approve.

Hot debate marked the civil rights, gun control and tax hike measures while approval of a truth-in-lending bill, a number of conservation measures, a Social Security hike and a program to help poor families buy houses did not generate quite so much heat.

Also par for the congressional activity course is the list of important bills and issues that failed to get action.

THEY INCLUDE ratification of the nuclear nonproliferation treaty, election reform, extension of the reciprocal trade program and President Johnson's proposal to lower the voting age to 18.

Senate Democratic Majority Leader Mike Mansfield, D-Mont., had this assessment of the 90th Congress: "This has been a good Congress, not a great Congress, not a poor Congress."

Actually it is too early to judge the record of the 90th Congress because it will take some time for some of its decisions to reach full effect.

One glaring characteristic of the 90th Congress that is of interest in an election year was its steadfast refusal to be dominated by President Johnson.

Despite Democratic control, the President was unable in many instances to exert executive influence.

MOST NOTABLE was the refusal of the Senate to confirm the President's nomination of Justice Abe Fortas to the top job in the U.S. Supreme Court and the long delay in the House on the income tax increase.

House Democrat Wilbur Mills led the fight against the 10 per cent surcharge proposal and Sen. J. William Fulbright, another Democrat, gave the President fits on his Vietnam policy.

The President has indicated he is considering calling the Senate back into session to get action on the nuclear nonproliferation treaty.

Our guess is that he will pass up the recall option. With the Soviet Union's invasion of Czechoslovakia hardening U.S. public opinion and his inability to bend the Senate to his will, the prospects for ratification of the treaty looks awfully dim.

Helping Others

The State of Israel dinner honoring E. L. Wheatley, president of the International Brotherhood of Operative Potters, and the pottery union investment aid to that nation calls attention anew to the wide range of activities sponsored by the union for helping others.

The financial return on the bonds is an economic advantage to the union, of course, but the investment is important in further development of a progressive democratic nation and ally, and for creating jobs for other union members.

The international union and the locals have in the past and are continuing to devote time and and funds to a number of civic and community projects, including scholarships, support for Kent State University, housing for the retired and varied other programs.

Labor leaders and their counterparts in industry and business have become increasingly aware of the need for viewpoints of today's complex existance broader than the narrow, rigid self-centered attitudes which dominated some of their relationships and those with their communities in years gone by.

Russia Ready To Talk

An outgrowth of congressional action to authorize a limited antimissile defense sytem for the United States is an uncharacteristic eagerness on the part of the Soviet Union to talk about a moratorium on offensive and defensive missiles.

Observers report to U.S. officials that the Russians are learning just how costly an antimissile shield will be and its obvious inadequacy in event of a heavy attack.

It also is reported that Russia is eager to demonstrate to the world that its invasion of Czechoslovakia has not doomed the possibility of an East-West detente.

Communist diplomats have said Moscow is ready to open talks immediately without strings other than there be no limit on the duration or scope of the negotiations.

The U.S. State Department knows well the Russian tactics of stalling, seeking advantage and use of propaganda so it is prepared to talk with the Russians without compromising national security.

It then is in the interest of seeking a peaceful world that the United States should agree to talks on the critical issue of missile production.

Letter From Max

Gen. Curtis LeMay needn't feel bad about the removal of his picture from the corridor of a high school in Columbus after George Wallace chose him for a vice-presidential running mate. If LeMay is elected, the chances are a school will be given his name, which beats a picture any day.

A firing squad in Cuba shot two men the other day for sabotage and Castro is complaining about young delinquents. He may wind up putting the young delinquents before firing squads, too.

The number of professional athletes who incorporate themselves for a bigger piece of the action is growing by leaps and bounds. It is getting so they can't tell whether you are talking to a person or a company.

Then there was the woman who was accused of gadding about all day and never staying at home. But she had an explanation. "It is too dangerous at home. I read where there are four million accidents in homes every year and the home is no place for me," she said.

Many mothers who had hoped their sons might some day become president of the United States changed their minds when they saw in the paper that Richard Nixon's campaign probably will cost $20 million.

Because the moon's gravity and atmosphere are so different from the earth's, the first astronauts there may fall flat on their faces, scientists say, which is something like several presidential and vice-presidential candidates have done by just opening their mouths down here on earth.

The announcement that the Ohio Highway Patrol has connected its traffic communications network to a computer for instanteneous information on stolen cars is good news except for the bad guys. Certainty of apprehension is said to be a greater deterrent to crime than the severity of the punishment.

Here is a quote from an article by John Tebbel in the Oct. 12 Saturday Review:

"Not surprisingly, the European press seems much more concerned about the possibility of controls on the press in the United States than do papers in America, where relatively little response has been made to the attacks on the press since Chicago. The difference in concern no doubt reflects the fact that Europe knows what control of the press really means.

"The fact that such control was a central issue in the Czech crisis was well understood in other countries outside the Iron Curtain. Although American publishers have their freedom-of-information committees carrying on a constant struggle, they do not seem to be aware, in Europe eyes, of the catastrophe that might overtake them if a conservative reaction in America produced a successful attack on the First Amendment — a freedom much envied abroad.

"The Europeans, in brief, have something important to say to us. With a finger pointing at Czechoslovakia, they are saying that it is only a short step between telling newspapers what they ought to print and telling them what they must print."

Faithfully yours, MAX

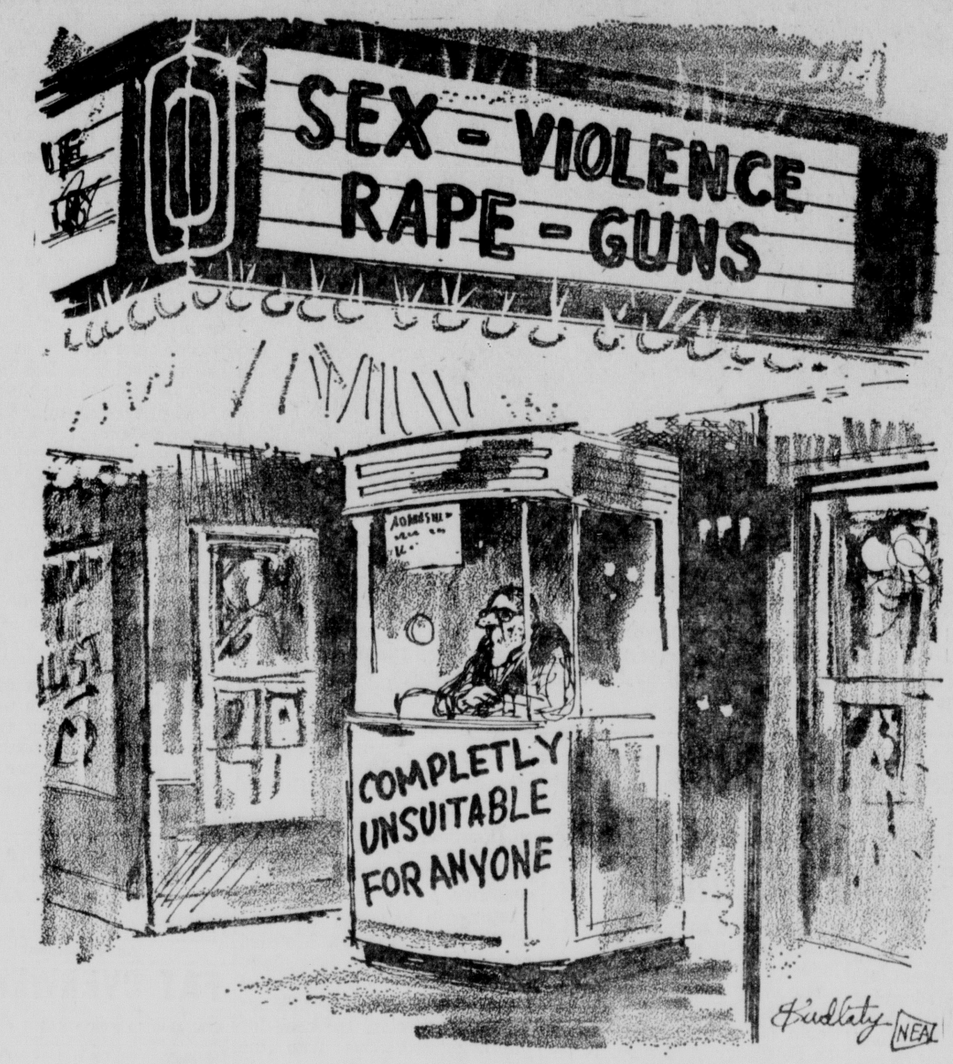
How About A Real Rating System?



The Negative Vote

By Art Buchwald

WASHINGTON — As we near the final weeks of one of the most exciting presidential campaigns since Rutherford B. Hayes ran against Samuel J. Tilden, it is clear that most people are voting against one of the three candidates rather than for any of them.

Art Buchwald

My friend Frankenheimer thinks he has the solution. He calls it the "negative vote."

"Most Americans this year," Frankenheimer said, "know who they're against, but they don't know who they're for."

"I don't understand," I said.

"WELL, ALL YOU HEAR people say is, 'I wouldn't vote for Nixon if you gave me a million dollars,' or 'I can't stand Hubert Humphrey,' or 'Heaven help us if George Wallace gets elected.' There's no question that they would like to vote against these candidates. But there is still a big question whether they could, in their hearts, vote for any of them."

"You may have something there, Frankenheimer."

"I know I do. Not only are Americans confused about whom to vote for but they're not sure when they vote that they're really voting for the person they think they're voting for. The Nixon people say a vote for Wallace is a vote for Humphrey; the Humphrey people say that a vote for Nixon is a vote for Wallace, and the Wallace people say a vote for Humphrey is a vote for anarchy."

"It's not easy to be a voter these days," I had to agree.

"The simplest thing," Frankenheimer said, "is to let people cast their ballots against Humphrey, against Nixon or against Wallace. In that way we'd know where the people really stand.

"THE BEAUTY OF IT," Frankenheimer said, warming up to his idea, "is that you would only attend the rallies of the candidate you most object to, and you would only work for the man you wished to defeat.

"It would give you something to work for."

"The negative vote plan would solve the financial problems of the candidates," Frankenheimer said. "People would much rather give money to defeat someone than donate it to a lukewarm candidate whom they think they're for."

"If the electorate only showed up at rallies of candidates they were against," I said, "it would cut the speeches in half."

"They're doing it now on a modest scale with hecklers," Frankenheimer said, "so that's why I know it will work. Another reason why I believe the negative vote has merit is that it will get young people interested in politics again. Most of them opted out when McCarthy was defeated in Chicago.

But if they were given the opportunity to work for the defeat of Humphrey, Nixon or Wallace, the young people would all be back in force, and you'd have a real sense of participation in politics again."

"How would it work?" I asked.

"ON NOV. 5 THE VOTERS would go to their precincts and choose the lever which read 'against Nixon,' 'Against Humphrey' or 'Against Wallace.' After the vote was tallied, the candidate who got the least amount of votes would then become president of the United States. But he would have to have an absolute minority to win or it would go to the House."

"I know whom I want to vote against right now," I said.

"Of course you do," said Frankenheimer. "Everyone does. Give the American people someone to vote against and they'll come out in droves. Even if the candidate they voted against wins, they'll feel better for having shown how they feel about him. If nothing else, the negative vote could get this country out of the mental depression it's been in since the presidential campaign began."

Czechoslovak Dilemma

By Don Oakley

It must be rather difficult these days for homegrown Communists and disciples of Marxist-Leninism to tell themselves that communism is the hope of mankind and that Soviet Russia is the guardian of that hope.

Here is the price the Czechoslovakian people are going to have to pay for their brief flirtation with the elementary freedoms Americans and citizens of other "decadent" democracies take for granted:

The Communist party must resume dominant rule in Czechoslovakia.

The party must exercise complete control over the press, radio and television.

Liberal Czech leaders must be replaced by orthodox Communists, meaning those who will unquestioningly toe the Kremlin line.

IN RETURN for these chains, the Soviet Union promises to begin withdrawing its occupation troops—someday.

Yes, the mental convolutions non-Russian Communists must be going through are difficult, but not impossible for men who recovered from the shocks of Hungary and de-Stalinization.

What is surprising is that so many ordinary Americans have so easily accepted and so quickly rationalized away Russia's brutal repression of Czechoslovakia.

The Russians were merely protecting their legitimate national interests, the argument goes. Their intervention in Czechoslovakia was really not much different from our intervention in the Dominican Republic or in Vietnam. Indeed, runs the most extreme of these rationalizations, our involvement in Vietnam set an example that encouraged the Russians to move into Czechoslovakia.

As if America's failure to oppose the aggressive spread of communism in Southeast Asia (whether or not Vietnam was the wisest choice of time or place to oppose it) would have persuaded the Soviets to allow communism to peacefully recede in Eastern Europe.

Yet so weary are we of more than two decades of cold war, so anxious are we to discover any indications of good will and decency among the rulers of Russia and so inconsequential is little Czechoslovakia that many of us have bought these arguments.

WE MAGNIFY the motes in our own eyes in hopes it will cause our adversary to recognize the beams in his.

We content ourselves with claiming a moral defeat for the Soviets in Czechoslovakia, forgetting that this is the kind of "defeat" the Soviets have always willingly accepted in exchange for the practical advantages it gains them.

Certainly, Czechoslovakia is not worth a world war. There is nothing we can do for the peoples of the European satellites that they are unable to do for themselves. But if we cannot prevent a Hungary or a Czechoslovakia, neither can we justify these human tragedies under the delusion that there is really no difference between Russian foreign policy and our own.

Ironically, on the day that Secretary of State Dean Rusk appeared at the United Nations to call Russia to account for its invasion of Czechoslovakia, he was heckled by a group of young Vietnam war dissenters, about whom the most charitable thing that can be said is that their education is incomplete.

Hire By Color?

Demands that Negro teachers in overwhelming numbers be assigned to schools which are attended predominantly by Negro children have raised a grave issue in many of the large cities across the country. Controversies have developed in New York, Chicago, Detroit, Washington, Philadelphia, Boston, Milwaukee and Cincinnati.

On its face, it looks as if Negroes are asking today for what white people in the suburbs of the North and throughout the South have been urging — namely, that schools shall be under the control of a board in a neighborhood or district, thereby permitting "segregation" of students and faculties in accordance with residential patterns and the desires of parents.

NO OBJECTIONS are being raised in this particular controversy to the attendance of a relatively small number of white children at Negro schools or the admission of Negroes to predominantly white schools. The idea seems to be generally endorsed that whoever lives in a neighborhood should have the right to go to the school therein.

The federal government, on the other hand, has by the use of public funds promoted the concept of assignment of teachers and the busing of pupils from one school or district to another to correct "racial imbalance," even though this is is forbidden by the Civil Rights Act of 1964.

Today, however, the new phase of the segregation dispute isn't really based as much upon racial feelings or sympathies as it is on the outgrowth of a belief among some educators and sociologists that Negro students should have Negro teachers because they need a different kind of training than is given to white children in white schools.

The objection raised now is to the use of a centralized system of school administration whereby a City Hall and a single school board manage the affairs of a big city.

Negro leaders argue that local school boards should be set up in what is called a "decentralized" system and that each of the district boards shall have the right to fix the curriculum and choose the teachers they desire, irrespective of whether almost all of the faculty members are Negroes.

This has precipitated a labor union dispute in New York City. The union, called the United Federation of Teachers, contends there is discrimination against white teachers in some areas of the city and that district school boards should be eliminated if they engage in such practices.

The current strike is largely the result of a belief that local school boards are discriminating in the selection of teachers and that this might become nationwide.

New York City was among the first to try out the idea of neighborhood control of schools and other cities took up the same formula of decentralization. Bitter feeling has arisen and Negro boycotts of schools over the same issue occurred in Chicago this week, together with some disorders.

Some of the opponents of decentralization say they have no objection to the plan in principle but they do not like to see arbitrary power exercised over the employment of teachers.

The point is made, on the other hand, by some educators that to give a special kind of education in certain districts — such as the teaching of Afro-America history and culture, languages spoked in Africa, African methods of counting and African games — may supply "the missing pages of black culture."

OTHERS ARGUE that this will establish a different standard of education, making it difficult for Negro students to be fitted into high schools and colleges.

Statements are being made by some Negro sociologists that schools should be controlled by Negroes if the majority of the students are Negroes. But other educators say the whole public school system is endangered as a result of the decentralization plans which could bring about more segregation instead of integration.

Shall teachers be chosen by color instead of by merit? This is the fundamental issue.

Congress Calls It Quits

The 90th Congress finally backed through the adjournment door and ended its controversial current session.

As is usual, U.S. lawmakers have been criticized for legislation they approved and what they failed to approve.

Hot debate marked the civil rights, gun control and tax hike measures while approval of a truth-in-lending bill, a number of conservation measures, a Social Security hike and a program to help poor families buy houses did not generate quite so much heat.

Also par for the congressional activity course is the list of important bills and issues that failed to get action.

THEY INCLUDE ratification of the nuclear nonproliferation treaty, election reform, extension of the reciprocal trade program and President Johnson's proposal to lower the voting age to 18.

Senate Democratic Majority Leader Mike Mansfield, D-Mont., had this assessment of the 90th Congress: "This has been a good Congress, not a great Congress, not a poor Congress."

Actually it is too early to judge the record of the 90th Congress because it will take some time for some of its decisions to reach full effect.

One glaring characteristic of the 90th Congress that is of interest in an election year was its steadfast refusal to be dominated by President Johnson.

Despite Democratic control, the President was unable in many instances to exert executive influence.

MOST NOTABLE was the refusal of the Senate to confirm the President's nomination of Justice Abe Fortas to the top job in the U.S. Supreme Court and the long delay in the House on the income tax increase.

House Democrat Wilbur Mills led the fight against the 10 per cent surcharge proposal and Sen. J. William Fulbright, another Democrat, gave the President fits on his Vietnam policy.

The President has indicated he is considering calling the Senate back into session to get action on the nuclear nonproliferation treaty.

Our guess is that he will pass up the recall option. With the Soviet Union's invasion of Czechoslovakia hardening U.S. public opinion and his inability to bend the Senate to his will, the prospects for ratification of the treaty looks awfully dim.

Helping Others

The State of Israel dinner honoring E. L. Wheatley, president of the International Brotherhood of Operative Potters, and the pottery union investment aid to that nation calls attention anew to the wide range of activities sponsored by the union for helping others.

The financial return on the bonds is an economic advantage to the union, of course, but the investment is important in further development of a progressive democratic nation and ally, and for creating jobs for other union members.

The international union and the locals have in the past and are continuing to devote time and and funds to a number of civic and community projects, including scholarships, support for Kent State University, housing for the retired and varied other programs.

Labor leaders and their counterparts in industry and business have become increasingly aware of the need for viewpoints of today's complex existance broader than the narrow, rigid self-centered attitudes which dominated some of their relationships and those with their communities in years gone by.

Russia Ready To Talk

An outgrowth of congressional action to authorize a limited antimissile defense sytem for the United States is an uncharacteristic eagerness on the part of the Soviet Union to talk about a moratorium on offensive and defensive missiles.

HINTS FROM HELOISE

Keeping Fringes Fresh

DEAR HELOISE: Fringe is so fashionable now and used on many things. But it's so hard to restore it to have that nice pretty look after laundering.

Heloise

I learned to shake these garments real hard before hanging them on the line and it eliminated most of the tangles.

JANICE HEDGE.

-:-

On some types of fringe you can also comb out those tangles with the large end of a comb! And after you press a garment, you can brush most fringe with a clean nylon hairbrush and it will fluff up again.

HELOISE

DEAR HELOISE: I'm a busy mother of four.

Our house is crowded with little closet space. It seemed my 12-year-old daughter "never had a thing to wear," and wore the same tired-looking things over and over.

In taking a serious look at her wardrobe, we found that her clothing was adequate, but much was unwearable because of the need of simple alterations or repairs.

So, first of all, we got busy and made as many garments wearable as possible, giving them the necessary attention.

Then we made a chart for 10 school days utilizing all her clothes.

In the space for each day we listed a complete costume. We taped the chart on her closet door and invested in an over-the-door hanger.

Now each Sunday evening, we check the chart and hang the week's choice of clothes on the hanger. We make doubly sure that all of the clothes are clean, in good repair and freshly pressed.

As they are worn, they are either laundered or re-pressed and put in the closet until "their turn" comes again.

Now what a pleasure it is to both of us to see her leave for school with that band-box look!

PROUD MAMA.

DEAR HELOISE: I'd like to go "one better" on the title of Homemaker or Housewife.

Instead of "Domestic Engineer," I believe that "Household Executive" fits even better . . .

FLORENCE ANDERSEN.

-:-

DEAR HELOISE: Here's an idea for a change from the every-day school sandwich.

Use a hot dog bun and your favorite spread. Put two or three different kinds of lunch meat along with a slice of cheese on this.

Presto, a miniature "poor-boy sandwich"!

I also use hamburger buns the same way.

BUSY MOM.

DEAR HELOISE: This is a terrific hint for those who have mountain cabins or cabins in the woods with a fireplace or wood-burning stove.

When it comes time to cut and stack the wood, don't put it in a woodshed, woodpile or under the cabin.

Most of us have screened-in porches that are not in use during the winter.

We have learned over the years that if we pile the wood on the porch, the snakes will not get in it and the wood stays dry. Also, we don't bring in bugs.

And who uses a screened-in porch when they need the wood for a fireplace?

AMELIA HARRISON.

-:-

DEAR HELOISE: For those who have fold-out divans with solid seats that make into a bed (studio couch, etc.)!

Did you know you can buy a fitted bed sheet, dye it to contrast or match and it makes an ideal protective covering?

It looks nice and doesn't need constant re-adjusting.

Just pull out the divan to put it on. Then when you fold it back, the center of the sheet will fit neatly into the crevice giving a tailored look.

I bought an irregular sheet and the total cost (with dye) was only about $2.50.

BUSY BEA.

DEAR HELOISE: Did you know that very fine sandpaper may be used to smooth out nicks and chips in your dishes? The "wet" kind with a cloth backing is best.

ANNIE.

MacMillan was the grandson and founder of Cargill which grew from essentially a regional grain firm to a diversified corporation which included shipbuilding in its endeavors. MacMillan had been ill since suffering from a stroke in 1960.

HINTS FROM HELOISE

Keeping Fringes Fresh

DEAR HELOISE: Fringe is so fashionable now and used on many things. But it's so hard to restore it to have that nice pretty look after laundering.

Heloise

I learned to shake these garments real hard before hanging them on the line and it eliminated most of the tangles.

JANICE HEDGE.

-:-

On some types of fringe you can also comb out those tangles with the large end of a comb! And after you press a garment, you can brush most fringe with a clean nylon hairbrush and it will fluff up again.

Gun Registration Isn't Practical Now, Saxbe Says

CLEVELAND, Ohio (AP) — Ohio Atty. Gen. William B. Saxbe told a group of attorneys Wednesday that at the present time, with so many people afraid, he does not think gun registration is practical.

Saxbe, Republican candidate for the U.S. Senate, spoke to the Cuyahoga County Bar Association's monthly luncheon and said in answer to a question:

"A time may come when the only guns are those carried by police and those kept by sportsmen. I would like to see this. But at the present time, with people afraid in their homes, with people fearful in the streets, with people in danger from day to day, it is not practical."

Saxbe said he favored control of interstate trade in guns. He said he is against gun registration and licensing because "they amount to confiscation and if we want to confiscate guns we should say so."

Saxbe again suggested the United States pull out of Vietnam. He said America should support Israel instead because that country meets the requisites of our support-democracy, stability, efficiency and military competence.

Gun Registration Isn't Practical Now, Saxbe Says

CLEVELAND, Ohio (AP) — Ohio Atty. Gen. William B. Saxbe told a group of attorneys Wednesday that at the present time, with so many people afraid, he does not think gun registration is practical.

Saxbe, Republican candidate for the U.S. Senate, spoke to the Cuyahoga County Bar Association's monthly luncheon and said in answer to a question:

"A time may come when the only guns are those carried by police and those kept by sportsmen. I would like to see this. But at the present time, with people afraid in their homes, with people fearful in the streets, with people in danger from day to day, it is not practical."

Saxbe said he favored control of interstate trade in guns. He said he is against gun registration and licensing because "they amount to confiscation and if we want to confiscate guns we should say so."

Saxbe again suggested the United States pull out of Vietnam. He said America should support Israel instead because that country meets the requisites of our support-democracy, stability, efficiency and military competence.

Windows Of Eyes Restored

Few Dozen Blind People See Again, Report Says

ATLANTIC CITY, N.J. (AP) — A few dozen people blind for years now are seeing again through a new method of restoring the windows of the eyes, a specialist reported today.

One man passed his driver's license test a few weeks ago, said Dr. Louis J. Girard, of Baylor University College of Medicine in Houston, Tex.

A woman, blind for 48 years —since childhood—now is able to see the children she reared, he added.

The operation putting an artificial cornea or "window" into the eye might help 10 to 15 per cent of the millions of blind people throughout the world, Girard said.

It applies only to those whose own corneas have been damaged by chemical burns or other injuries or certain diseases, or who have congenital defects affecting the cornea, he said in a report for the American College of Surgeons.

He predicted that most opthalmologists or eye specialists should be able to perform the operation, which takes up to 1½ hours.

Girard said he has placed artificial corneas into the eyes of 60 persons in the last 3½ years, and at least half are able to see.

"The results are the most gratifying I have had in my career as an opthalmologist," Girard said in explaining the technique at a news conference.

The surgery uses a tiny shaft of clear plastic which acts as a thick lens. It has skirts or projections of mesh which hold it in place through the cornea.

The persons's own eye tissue can adhere to the mesh to keep it firmly placed. To achieve this, the mesh is covered with human eye tissue, sclera and conjunctiva, taken from the other blinded eye or from donated human eyes, he said.

Girard is professor and chairman of the department of opthalmology at Baylor University and director of the Eye Institute at Texas Medical Center.

The DOCTOR Says

Red Spots Under The Skin Is Purpura

Q—I am a woman, 47. I have little red spots on my arms and chest that look like blood under my skin. What causes them? Are they anything to worry about?

Dr. Brandstadt

A — Whether the spots are pinpoint in size or large spots that look like bruises, they are a form of purpura. The causes fall into three groups: (1) Those due to local injury (insect bites, snake bite, sprains, ruptured varicose veins and trauma), (2) capillary damage associated with chemical poisoning, acute infections, allergies or scurvy and (3) blood diseases (hemophilia, anemia, platelet deficiency and treatment with anticoagulants). How serious the condition is would depend on the cause.

Q—What causes one to get black - and - blue marks in various locations without any known injury?

A—Some form of purpura.

Q—Is purpura catching? Would vitamin B-12 help to cure it?

A—Although purpura is sometimes a symptom of an infectious disease, the symptom is not catching and in most cases the cause is noncommunicable. One cause is pernicious anemia and against this disease vitamin B-12 is very effective. If, however, the cause is scurvy, the treatment would be vitamin C.

Q—What is Henoch-Schoenlein purpura? What is the treatment?

A—Schoenlein purpura is an allergic purpura in which some of the bleeding occurs in the joints. Henoch purpura is an allergic form in which bleeding occurs in the intestinal wall, causing abdominal cramps. These forms of purpura are seen chiefly in children and young adults. Although they behave like allergic diseases, the underlying cause is often hard to find. Specific treatment is possible only if the allergen can be identified. Otherwise, relief of symptoms is all that can be offered.

Q—I have been told that my platelet count is low. Is this serious?

A—Blood platelets are cellular structures that are smaller and more fragile than the corpuscles. Their function is to prevent breaks in the capillaries. When the platelet count (normally about 300,000) drops below 100,000, small capillary hemorrhages occur — thrombocytopenic purpura. In most cases, the underlying cause is unknown. Surgical removal of the spleen is a life-saving measure. It should be done before any other operation is attempted if severe hemorrhage is to be prevented.

How Can I?

By ANNE ASHLEY

Q. — How can I remove paraffin easily from a container in which it has been melted?

A. — By filling the container with boiling water, then allowing it to cool. The paraffin will float on the surface of the water.

Q. -- How can I clean automobile grease stains from clothing?

A. — Unless the spot contains dirt, carbon tetrachloride does the trick quickly. Should the stain appear rather heavy, lubricate it first with white mineral oil, then flush from the fabric with carbon tetrachloride.

Midland Board Presents Elementary School Plans

Occupation of a new, $2 million centralized elementary building is being eyed for September 1970 by Midland school officials who today outlined the proposed schedule for construction.

The Board of Education plans to advertise for bids Aug. 11, 1969. These will be opened Sept. 1. Construction is tentatively scheduled to begin Sept. 12, after the necessary contracts have been signed.

Within a year, students should be using the new facility.

Tentatively, a two story, part split level structure is being planned. It will be erected on Ohio Ave. and will replace the existing 1st St., 7th St. and 4th St. Schools.

Some plans already have been put in motion and groundbreaking is eyed for June 1969.

—:—

THE FACILITY will be constructed on the site of the 7th St. School and playground area.

The first "schematics," or preliminary plans, will be presented to the Board of Education Nov. 7, with a workable drawing scheduled for study Dec. 5.

The preliminary plans will be reviewed again on Jan. 9, 1969, and the final plans and specifications are scheduled to be started Jan. 10.

Joseph Bontempo of Beaver is the architect. His contract has been presented to the borough solicitor for study. It will be acted on at the November board meeting.

School officials pointed out no property other than the old school will be razed. None of the homes in the area will be affected. The alley near the homes along 7th St. will be used as the entrance to a new play area.

The new playground will be located in the Green Belt area of land above the present school. It was donated to the borough by the Crucible Steel Corp. and turned over to the school by Council.

—:—

DR. CHARLES P. Henderson, superintendent, said meetings are being held each Wednesday with elementary instructors to discuss curriculums and programs for the proposed school. Several teachers have been visiting other new schools to obtain ideas.

Dr. Henderson and school board members have visited buildings in Allegheny County and also plan to tour new structures in Ohio.

Henderson said efforts will be made to utilize the best features of all the buildings in Midland's new educational unit.

Tentative plans call for a building large enough for 875 students. It will have 18 classrooms, three special education units, two kindergarten rooms, an art room, music room, library, multi-purpose assembly and cafeteria area, kitchen, conference room, group instruction section and rooms for guidance, clerks, faculty, health and seminars and a waiting area.

The site analysis report and petition for site approval was submitted to the Pennsylvania Department of Public Instruction in August. This followed action by Council to present the school district with 21.6 acres from the Green Belt.

—:—

STATE APPROVAL was received Sept. 26. Beginning in February 1969 and continuing through June, the board plans to receive regular progress reports in order to keep the project moving.

The target date for completed contract documents is July 10. These will be submitted to the Department of Public Instruction and Art Commission for approval.

Dr. Henderson said the school will not require an increase in taxes. It should result in a considerable savings in operating costs, he pointed out, stating between $50,000 and $60,000 is spent annually for each of the old buildings.

Court Orders 3 Names Off W. Va. Ballot

CHARLESTON, W. Va. (AP) — The State Supreme Court Wednesday ordered the names of three Republican state senatorial candidates removed from the Nov. 5 ballot.

The suits to remove the three candidates' names were filed by Democratic party officials and presented to the court in arguments Tuesday.

The candidates involved are: Don C. Elkins of Godbey Heights in Logan County, for the 7th Senatorial District; Robert G. Phillips of Elkins, in the 12th District, and Joseph B. Lightburn of Jane Lew in Lewis County, in the 13th.

The candidates were nominated before the September deadlines but it was not until the deadlines passed that Secretary of State Robert D. Bailey noticed the wrong party officials had signed the papers.

The correct papers were filed later and Bailey took the position that the new papers were merely amendments to those filed earlier with his office.

Bailey said today, after being informed of the court's decision that the candidates' names must be removed, that they would be taken off the ballot in areas which haven't received their printed forms.

In the other areas, he said, stickers would be pasted over the candidates' names.

The court's decision means that these Democratic senatorial candidates will run unopposed next month:

Former Welfare Commissioner W. Bernard Smith of Logan, in the 7th District; and incumbents Hans McCourt of Webster Springs, in the 12th, and William R. Sharpe Jr. of Weston, in the 13th.

The first "schematics," or preliminary plans, will be presented to the Board of Education Nov. 7, with a workable drawing scheduled for study Dec. 5.

The preliminary plans will be reviewed again on Jan. 9, 1969, and the final plans and specifications are scheduled to be started Jan. 10.

Joseph Bontempo of Beaver is the architect. His contract has been presented to the borough solicitor for study. It will be acted on at the November board meeting.

School officials pointed out no property other than the old school will be razed. None of the homes in the area will be affected. The alley near the homes along 7th St. will be used as the entrance to a new play area.

The new playground will be located in the Green Belt area of land above the present school. It was donated to the borough by the Crucible Steel Corp. and turned over to the school by Council.

—:—

DR. CHARLES P. Henderson, superintendent, said meetings are being held each Wednesday with elementary instructors to discuss curriculums and programs for the proposed school. Several teachers have been visiting other new schools to obtain ideas.

Dr. Henderson and school board members have visited buildings in Allegheny County and also plan to tour new structures in Ohio.

Henderson said efforts will be made to utilize the best features of all the buildings in Midland's new educational unit.

Tentative plans call for a building large enough for 875 students. It will have 18 classrooms, three special education units, two kindergarten rooms, an art room, music room, library, multi-purpose assembly and cafeteria area, kitchen, conference room, group instruction section and rooms for guidance, clerks, faculty, health and seminars and a waiting area.

The site analysis report and petition for site approval was submitted to the Pennsylvania Department of Public Instruction in August. This followed action by Council to present the school district with 21.6 acres from the Green Belt.

—:—

STATE APPROVAL was received Sept. 26. Beginning in February 1969 and continuing through June, the board plans to receive regular progress reports in order to keep the project moving.

The target date for completed contract documents is July 10. These will be submitted to the Department of Public Instruction and Art Commission for approval.

Dr. Henderson said the school will not require an increase in taxes. It should result in a considerable savings in operating costs, he pointed out, stating between $50,000 and $60,000 is spent annually for each of the old buildings.

Escape Serious Damage

The Florida Keys escaped serious damage. At Key West, winds blew steadily at 50 m.p.h. through the night.

Squall lines filled with husky thunderstorms fanned out over 200 miles from the storm center. But forecasters said Gladys was about as big and intense as she was going to get.

Florida's citrus belt, with 129 million boxes of fruit hanging from the trees, apparently was not in great danger.

Schools were ordered closed throughout the Florida Keys and in the Tampa to Fort Myers area. Personnel at the U.S. Strike Command headquarters at MacDill Air Force Base in Tampa were told to stay at home.

People living in areas subject to flooding were warned to evacuate if they appeared in danger of being cut off from higher ground.

Off Fort Myers, residents of beachfront homes began streaming to the mainland.

A grocery store at a juncture of roads leading to Fort Myers Beach and Sanibel Island reported a heavy run Wednesday night on canned foods, candles and flashlights.

"Canned tuna, canned sausage, Vienna sausage, you know, all that sort of thing," said Lou Burfind, clerk at Miners Supermarket. "Candles? See this one: That's the only one that's left and I'm keeping it."

Radio Havana broadcasts monitored in Miami said the Limones River in Pinar Del Rio Province had overflowed, damaging cane fields and knocking out electrical service of the Artemisa area.

Court Orders 3 Names Off W. Va. Ballot

CHARLESTON, W. Va. (AP) — The State Supreme Court Wednesday ordered the names of three Republican state senatorial candidates removed from the Nov. 5 ballot.

The suits to remove the three candidates' names were filed by Democratic party officials and presented to the court in arguments Tuesday.

The candidates involved are: Don C. Elkins of Godbey Heights in Logan County, for the 7th Senatorial District; Robert G. Phillips of Elkins, in the 12th District, and Joseph B. Lightburn of Jane Lew in Lewis County, in the 13th.

The candidates were nominated before the September deadlines but it was not until the deadlines passed that Secretary of State Robert D. Bailey noticed the wrong party officials had signed the papers.

The correct papers were filed later and Bailey took the position that the new papers were merely amendments to those filed earlier with his office.

Bailey said today, after being informed of the court's decision that the candidates' names must be removed, that they would be taken off the ballot in areas which haven't received their printed forms.

In the other areas, he said, stickers would be pasted over the candidates' names.

The court's decision means that these Democratic senatorial candidates will run unopposed next month:

Former Welfare Commissioner W. Bernard Smith of Logan, in the 7th District; and incumbents Hans McCourt of Webster Springs, in the 12th, and William R. Sharpe Jr. of Weston, in the 13th.

U.S. War Dead Last Week Lowest In Last Two Months

SAIGON (AP)—The number of Americans killed in action in Vietnam last week was the lowest in eight weeks, the U.S. Command announced today. South Vietnamese and enemy casualties also dropped, reflecting the current lull in ground action.

The weekly casualty report said 177 Americans died in combat during the seven-day period ending at midnight Saturday.

This was the lowest number of Americans killed since 159 died in the week ending Aug. 17. In the week ending Oct. 5, 190 Americans were killed in action.

The U.S. Command also reported that 1,278 Americans were wounded last week, with 659 requiring hospitalization. A week earlier, 1,326 were wounded.

South Vietnamese headquarters reported that 176 government troops were killed last week, 690 were wounded and 14 were missing. In the previous week the totals were 322 killed, 1,065 wounded and 25 missing.

A total of 1,527 of the enemy were reported killed last week, a sharp drop from the 2,115 reported for the week before. But the latter figure was an upward revision from 1,654 reported last Thursday.

The weekly report raised to 28,825 the number of Americans killed in the Vietnam war since Jan. 1, 1961. In that period 180,829 Americans have been wounded in action, and 1,206 have been listed as missing or captured.

The U.S. Command said enemy dead total 406,276 from Jan. 1, 1961, through last Saturday.

U.S. War Dead Last Week Lowest In Last Two Months

SAIGON (AP)—The number of Americans killed in action in Vietnam last week was the lowest in eight weeks, the U.S. Command announced today. South Vietnamese and enemy casualties also dropped, reflecting the current lull in ground action.

The weekly casualty report said 177 Americans died in combat during the seven-day period ending at midnight Saturday.

This was the lowest number of Americans killed since 159 died in the week ending Aug. 17. In the week ending Oct. 5, 190 Americans were killed in action.

The U.S. Command also reported that 1,278 Americans were wounded last week, with 659 requiring hospitalization. A week earlier, 1,326 were wounded.

South Vietnamese headquarters reported that 176 government troops were killed last week, 690 were wounded and 14 were missing. In the previous week the totals were 322 killed, 1,065 wounded and 25 missing.

A total of 1,527 of the enemy were reported killed last week, a sharp drop from the 2,115 reported for the week before. But the latter figure was an upward revision from 1,654 reported last Thursday.

The weekly report raised to 28,825 the number of Americans killed in the Vietnam war since Jan. 1, 1961. In that period 180,829 Americans have been wounded in action, and 1,206 have been listed as missing or captured.

The U.S. Command said enemy dead total 406,276 from Jan. 1, 1961, through last Saturday.

Court Suspends 60-Day Sentence For Area Driver

An East Liverpool area man was given a suspended 60-day jail sentence by Judge Samuel Chertoff in Municipal Court this morning for driving while under court suspension of his driver's license.

John T. Riley of Rankin St., Glenmoor, was cited at 1 p.m. Monday by the Ohio Highway Patrol on Route 170. Riley told the court his wife had been driving him to and from work. On Monday, when it was time for him to leave for work he was unable to wake his wife, who had worked a night shift, so he decided to take a chance and drive he said.

When he got to Route 170, he noticed a patrol check set up, started to back up, and then decided to proceed through the check, he related.

He was cited for improper backing and driving while under suspension of his license. On the improper backing charge he was ordered to pay $15 and costs and also the court costs on the suspended jail sentence.

Probation Given Man In Burglary On Dresden Ave.

LISBON — Judge Joel H. Sharp of Common Pleas Court granted probation Wednesday to an East Liverpool man who admitted a burglary.

A Wellsville man was denied probation Tuesday and was sentenced to 1 to 20 years in the Ohio State Penitentiary for theft of a truck.

Dean Newlen, 30, of 916 Fairview St., was placed on good behavior for five years for a break-in last March 15 at the Hales Confectionery at 781 Dresden Ave. Nothing was taken.

Police found Newlen "passed out" on the floor. The defendant said he was on his way home after stopping at several taverns. He said the last thing he remembers before "coming to" in the store was passing the Riggs Building on Dresden. Some money from the cash register was on the floor by Newlen, police said.

Kenneth L. Hoschar, 32, of Wellsville RD 1, pleaded guilty last May to the theft of a GMC dump truck March 29 from the M. & B. Coal Mining Co. near West Point.

While awaiting a probation hearing, Hoschar left the county without permission of his bondsman. Hoschar has been in the County Jail in lieu of $5,000 bond since July 7 when the bondsman returned him from St. Clairsville and received permission of the court to withdraw as his surety.

more than to erect a wall of alienation and sow distrust between our peoples.

"We must oppose this by our unity, which is stronger because it is engendered by the community of our class interests and our goals of building socialism and comunism."

He predicted that the treaty "will meet with the broadest support and approval of the peoples of the U.S.S.R. and Czechoslovakia, other Socialist nations and all the forces which prize the cause of peace and socialism."

Cernik said the treaty "strengthened relations of close cooperation and friendship between the Czechoslovak nation and the nations of all countries of the Socialist comunity," the Czechoslovak news agency CTK reported.

But Kosygin received a chilly reception at Prague's airport on his arrival from Moscow, reflecting local distaste for the treaty. As required by protocol, Cernik and Cabinet officials were on hand, but there was no official greeter from the nation's Communist party and the honor guard omitted the usual salutation: "Success, comrade premier."

Prague sources said the Czechoslovaks are dissatisfied with Russian demands for the right of Soviet military courts to try occupation soldiers charged with law violations; Soviet-proposed financial arrangements for the cost of basing troops here, and the vagueness of the agreement which lets the Russians decide how long occupation troops will remain.

Jurors To Begin Study In Charge Of Vehicle Theft

LISBON — A Common Pleas Court jury heard closing arguments this morning in the trial of Joseph E. Hill, 34, of 91½ S. Market St., East Palestine charged with auto theft.

The September Grand Jury indicted Hill secretly on a charge of stealing a 1960 car owned by LeRoy Henderson of East Palestine last May 10.

Hill testified Wednesday he asked Henderson for permission to drive his car to Salem. The car was demolished in a one-car accident on Millvill Hill east of Salem about 2:40 a.m. as Hill was returning to East Palestine. Henderson denied he gave Hill permission to use the car.

Judge Raymond S. Buzzard presided for the trial, the first in the September term because of several changes of plea from not guilty to guilty.

On the jury are Sallie O'Hanlon, Willard M. Laughlin, Hazel L. Fife, Mary Louise Heddleston and Mary E. Wines, East Liverpool; Anthony L. Oliver, Leetonia, and Harriet Jackson, Clarence Walker, Marcia Magg, Elaine Greenamyer, George McFeely and Patricia Stampp, Salem. Nevada Laitsch, East Liverpool, was the alternate.

Probation Given Man In Burglary On Dresden Ave.

LISBON — Judge Joel H. Sharp of Common Pleas Court granted probation Wednesday to an East Liverpool man who admitted a burglary.

A Wellsville man was denied probation Tuesday and was sentenced to 1 to 20 years in the Ohio State Penitentiary for theft of a truck.

Dean Newlen, 30, of 916 Fairview St., was placed on good behavior for five years for a break-in last March 15 at the Hales Confectionery at 781 Dresden Ave. Nothing was taken.

Police found Newlen "passed out" on the floor. The defendant said he was on his way home after stopping at several taverns. He said the last thing he remembers before "coming to" in the store was passing the Riggs Building on Dresden. Some money from the cash register was on the floor by Newlen, police said.

Kenneth L. Hoschar, 32, of Wellsville RD 1, pleaded guilty last May to the theft of a GMC dump truck March 29 from the M. & B. Coal Mining Co. near West Point.

While awaiting a probation hearing, Hoschar left the county without permission of his bondsman. Hoschar has been in the County Jail in lieu of $5,000 bond since July 7 when the bondsman returned him from St. Clairsville and received permission of the court to withdraw as his surety.

more than to erect a wall of alienation and sow distrust between our peoples.

"We must oppose this by our unity, which is stronger because it is engendered by the community of our class interests and our goals of building socialism and comunism."

He predicted that the treaty "will meet with the broadest support and approval of the peoples of the U.S.S.R. and Czechoslovakia, other Socialist nations and all the forces which prize the cause of peace and socialism."

Cernik said the treaty "strengthened relations of close cooperation and friendship between the Czechoslovak nation and the nations of all countries of the Socialist comunity," the Czechoslovak news agency CTK reported.

But Kosygin received a chilly reception at Prague's airport on his arrival from Moscow, reflecting local distaste for the treaty. As required by protocol, Cernik and Cabinet officials were on hand, but there was no official greeter from the nation's Communist party and the honor guard omitted the usual salutation: "Success, comrade premier."

Prague sources said the Czechoslovaks are dissatisfied with Russian demands for the right of Soviet military courts to try occupation soldiers charged with law violations; Soviet-proposed financial arrangements for the cost of basing troops here, and the vagueness of the agreement which lets the Russians decide how long occupation troops will remain.

Jurors To Begin Study In Charge Of Vehicle Theft

LISBON — A Common Pleas Court jury heard closing arguments this morning in the trial of Joseph E. Hill, 34, of 91½ S. Market St., East Palestine charged with auto theft.

The September Grand Jury indicted Hill secretly on a charge of stealing a 1960 car owned by LeRoy Henderson of East Palestine last May 10.

Hill testified Wednesday he asked Henderson for permission to drive his car to Salem. The car was demolished in a one-car accident on Millvill Hill east of Salem about 2:40 a.m. as Hill was returning to East Palestine. Henderson denied he gave Hill permission to use the car.

Judge Raymond S. Buzzard presided for the trial, the first in the September term because of several changes of plea from not guilty to guilty.

On the jury are Sallie O'Hanlon, Willard M. Laughlin, Hazel L. Fife, Mary Louise Heddleston and Mary E. Wines, East Liverpool; Anthony L. Oliver, Leetonia, and Harriet Jackson, Clarence Walker, Marcia Magg, Elaine Greenamyer, George McFeely and Patricia Stampp, Salem. Nevada Laitsch, East Liverpool, was the alternate.

Florida U.S. Senate Race One Of Hottest In South

MIAMI, Fla. (AP) — Florida's free-swinging fight over the U.S. Senate is one of the hottest races in the South this year and for the first time in his century the Republican candidate is favored.

GOP Rep. Edward Gurney is given a slight edge over former Gov. LeRoy Collins in a campaign in which Vietnam has been the main issue but much of the speech time has been devoted to the candidates' past political bedfellows.

Gurney has toured the Florida peninsula trying at every turn to tie Collins tightly to the Johnson-Humphrey administration. And Collins has attempted to shackle Gurney to Florida's flamboyant GOP Gov. Claude Kirk, whose popularity dipped after an aborted drive for second spot on the Republican national ticket.

There is widespread animosity in Florida against the Johnson administration, Gurney says, and it will hurt his opponent because "Collins was a key member of the chain during his time in Washington and he supported LBJ all the way."

Collins resigned as president of the National Association of Broadcasters at President Johnson's request in 1964 to become the first head of the Community Relations Service. The next year, Johnson named Collins undersecretary of commerce.

The silver-haired former governor has replied that he served wherever he was asked, but that he remains his own man. And usually he counters with a charge that Gurney "is in the same political bed" with Kirk, who has been called the "Go-Go governor."

Collins has pointed out that his Republican foe's Winter Park law office handles business for the State Turnpike Authority and says, "I have been telling people that Gurney and Kirk were working intimately together, and what stronger ties are there than money?"

The candidates, both attractive and veteran vote getters, are vying for the seat vacated by retiring Democratic Sen. George A. Smathers.

Gurney forces frequently refer to Collins as "Liberal LeRoy."

Collins says he rejects all labels, while Gurney invites his audiences to call him a conservative.

Gurney's Harvard-shaped New England tones sound much like those of the late President John F. Kennedy, but his views are closer to third-party presidential candidate George C. Wallace.

Collins calls for de-Americanization of the Vietnam war in a soft drawl common to his home area near the Florida-Georgia-Alabama lines.

"I am unalterably opposed to escalating the war further," says Collins. "We need to end the war as soon as possible."

Gurney says he espouses a "win policy" in Vietnam and urges increased bombing and closing of the port of Haiphong.

Gurney, 54, was elected to the House in 1962 and has been returned to office with increasing pluralities.

Collins, 59, was elected governor in a special election in 1954 after Gov. Dan McCarty died shortly after taking office. In 1956 he won a full four-year term.

Clark And Schweiker Differ On Viet Bombing Statements

By The Associated Press

Pennsylvania's Republican and Democratic candidates for the Senate differed sharply in recent statements on bombing of North Vietnam and how to end the war.

The Republican candidate; Rep. Richard S. Schweiker, said Wednesday he is against cessation of the bombing "without absolute assurance, preferable through specific acts, that Hanoi will correspondingly de-escalate its part of the war."

Schweiker said President Johnson should not have limited his bombing to the north without similar action from Hanoi.

But Democratic Sen. Joseph S. Clark, running for re-election, said in a speech prepared for today, "I believe we should stop the bombing of the North now."

Both men presented plans for peace. Clark said we should follow up the bombing halt by pressing for a cease fire at the Paris negotiations.

He said we should reaffirm our willingness to withdraw all foreign troops and press Saigon to enter into negotiations with the National Liberation Front" . . .so as to arrive at a settlement agreed upon by the Vietnamese themselves not dictated from outside."

Schweiker has reiterated a formula which he and seven other Republican congressmen proposed last year.

He labeled the formula "GRID" which he said stood for "Gradual Reciprocal Identifiable De-escalation." Under the plan the U.S. would take no steps to de-escalate the war without a similar step by the North.

Clark and Schweiker will debate domestic issues on KYW-TV Sunday.

Dinner Arranged By Toastmasters

The Toastmasters Club will hold a dinner meeting next Wednesday at 6:30 p. m. at the dining room at the Orioles Lodge on W. 6th St.

"Crucible Night" will be observed. The speaker will be Frank Matsukas, superintendent of production control at the Midland Division of the Crucible Steel Corp.

Robert Frontz, president, was in charge of the meeting last night at the Ohio Valley Gas Co. building. Vincent Maola was named "most improved speaker." Maola and James Buchanan gave impromptu speeches.

Ed Gray was toastmaster and Joseph Kriss was in charge of table topics. Maola was chief evaluator. Ed Custer won the bull-thrower award.

George Wallace Sets Youngstown Address

YOUNGSTOWN — Presidential candidate George C. Wallace will speak at a rally at Stambaugh Auditorium here next Wednesday.

Arthur Dees, Wallace's national campaign coordinator, announced Wallace will arrive at Youngstown Municipal Airport at 11 a.m. and motor to the auditorium for a rally on the front steps about noon.

It will be Wallace's first appearance in Ohio since the U.S. Supreme Court decision that placed his name permanently on the ballot.

Inmates Transferred From Pittsburgh Jail

PITTSBURGH (AP) — Authorities have begun transferring between 150 and 180 inmates from the Allegheny County Jail to the larger County Workhouse to alleviate overcrowdedness which reportedly sparked a 45-minute rampage by prisoners at the jail Tuesday night.

Judge Loran L. Lewis, who issued the transfer order Wednesday, said in the future only prisoners being held on minor charges or awaiting trial will be lodged at the 80-year-old jail in the heart of Pittsburgh.

He said the workhouse in O'Hara Township now is about one-fifth of its 1,000-prisoner capacity.

Closest On Military, Foreign Policy

Nixon, HHH Records Vary Widely In Spending

WASHINGTON (AP) — The Senate voting records of Richard M. Nixon and Hubert H. Humphrey show them closest on foreign and military policy and farthest apart on spending.

Nixon, the Republican presidential contender, and Humphrey the Democratic nominee, have laid out their differences in campaign papers and speeches. But these primarily represent promises.

But any comparison of actual performance, as nailed down in their own voting records, has to stretch back to 1952 when both were members of the Senate and were faced with decisions on the same issues.

This was the year of President Harry S. Truman's bitter fight with Congress, which ended with his domestic program in shambles. Almost without exception, Humphrey supported Truman and Nixon opposed him.

When the Senate killed Truman's veto of the controversial McCarran-Walter immigration bill, Humphrey voted to uphold the President and Nixon to override.

Nixon and Humphrey stood together in opposing foreign aid cuts. But Nixon voted to restrict the cost of the Point Four program and Humphrey against it. They differed over other policies in this field.

Nixon supported and Humphrey opposed an amendment barring foreign aid assistance to countries exporting war materials to Communist bloc countries.

Humphrey supported ratification of the Greek-Turkish protocol to the North Atlantic Treaty, but Nixon did not vote. Nixon voted for ratification of the Japanese peace treaty, and Humphrey was recorded as favoring it in a "pair."

Both supported a Senate mandate for a 143-wing Air Force and both opposed an effort to cut Air Force research and development funds by $68 million in the service's funds.

But Nixon voted for and Humphrey against pigeonholing a military pay raise bill.

Nixon, who said in Chattanooga, Tenn., during the current campaign that he had always voted for TVA, was recorded as voting in the 1952 session to cut that agency's funds by $45.7 million, a move that Humphrey opposed. The Senate subsequently added $14.7 million to TVA's funds as previously approved by the House, with Nixon opposing and Humphrey supporting.

On other spending proposals, Humprey supported and Nixon opposed adding $6.5 million to Bureau of Indian Affairs funds. Nivon voted to cut State Department salaries by 14.4 million and Humphrey voted against the cut. Nixon supported and Humphrey opposed a 10 per cent cut in rivers and harbors funds.

Nixon voted for and Humphrey against the tidelands oil bill, giving the states title to underwater, oil-rich lands, a measure that Truman described as "robbery in broad daylight."

When Truman asked for a two-year extension of price, wage and stabilization controls, Nixon voted to end rent controls and Humphrey opposed the action. Similarly Nixon supported and Humphrey opposed taking price controls off agricultural products.

Truman asked for authority to seize the struck steel mills, and Humphrey proposed a formula which Nixon opposed. Then the Republican senator voted for and the Democrats against a resolution which put the Senate on record as requesting the President to use the Taft-Hartley Act in the strike.

When the Senate voted 60-0 on April 10, 1952, against charging its Rules Committee to bring before it a resolution to expel Sen. Joseph R. McCarthy, R-Wis., Humphrey joined the majority but Nixon was not recorded.

In the eight years that he was Vice President, Nixon cast seven tie-breaking votes in the Senate. In all but one instance, when he was absent, Humphrey was lined up on the other side.

Some of these involved technical and minor matters. But Nixon broke a tie on May 29, 1956 to provide that the states, rather than the secretary of labor, should determine prevailing wages on interstate highway program jobs.

The then vice president provided the winning vote March 12, 1958 for an amendment increasing interest rates on Veterans Administration GI housing loans from 4½ to 4¾ per cent.

On April 22, 1959 Nixon nailed into a labor bill by his vote the so-called "bill of rights" proposed by Sen. John L. McClellan, D-Ark. Humphrey was absent.

Kawabata was cited for "his narrative mastership, which with great sensibility expresses the essence of the Japanese mind."

Kawabata, president of the P.E.N. Club of Japan and a member of the Japanese Academy of Letters, is one of a group of Japanese writers who emerged in the early 1900s and were called the New Sensualists.

Auto's Crash Hurts Woman

An East Liverpool woman was in "fair" condition at City Hospital with injuries suffered in a one-car accident on Park Blvd. at 7:29 a.m. today.

Mrs. Carol Anne Washer, 21, wife of Thomas Washer of 2213 St. Clair Ave., suffered injuries of the left hand, forearm, knee and ankle when her auto veered off the street.

Witnesses told police she was lying on the left rear fender of the 1968 sedan she had been driving. She was attended by a passerby, Wayne Stanley of 310 Carolina Ave., while a passenger in his auto, Charles Stewart of 723 Cain St., called police and an ambulance.

Police said her auto apparently went left of center and stopped off the road 144 feet east of the Emmanuel Presbyterian Church. Police were unable to talk with Mrs. Washer to learn what caused the accident.

Driver Hurt Slightly As Auto Rams Truck

LISBON — Carl A. Brehl of Washington, Pa., escaped serious injury at 3:30 p. m. Wednesday when he drove his car under the rear end of a farm truck at the tarffic light on the Square.

Chief of Police Leon T. Zahrndt said Brehl received a cut on the bridge of his nose and was given first aid by Mrs. Ruth Kauffman, County Health Department nurse.

The front of Brehl's 1966 sedan was demolished. Police said the car stopped with its windshield less than a foot from the rear of the truck.

There was minor damage to the 1963 model truck operated by Perry W. Tritten, 59, of Lisbon RD 5. Both vehicles were traveling east on W. Lincoln Way. Police said Brehl told them he must have fallen asleep.

Closest On Military, Foreign Policy

Nixon, HHH Records Vary Widely In Spending

WASHINGTON (AP) — The Senate voting records of Richard M. Nixon and Hubert H. Humphrey show them closest on foreign and military policy and farthest apart on spending.

Nixon, the Republican presidential contender, and Humphrey the Democratic nominee, have laid out their differences in campaign papers and speeches. But these primarily represent promises.

But any comparison of actual performance, as nailed down in their own voting records, has to stretch back to 1952 when both were members of the Senate and were faced with decisions on the same issues.

This was the year of President Harry S. Truman's bitter fight with Congress, which ended with his domestic program in shambles. Almost without exception, Humphrey supported Truman and Nixon opposed him.

When the Senate killed Truman's veto of the controversial McCarran-Walter immigration bill, Humphrey voted to uphold the President and Nixon to override.

Nixon and Humphrey stood together in opposing foreign aid cuts. But Nixon voted to restrict the cost of the Point Four program and Humphrey against it. They differed over other policies in this field.

Nixon supported and Humphrey opposed an amendment barring foreign aid assistance to countries exporting war materials to Communist bloc countries.

Humphrey supported ratification of the Greek-Turkish protocol to the North Atlantic Treaty, but Nixon did not vote. Nixon voted for ratification of the Japanese peace treaty, and Humphrey was recorded as favoring it in a "pair."

Both supported a Senate mandate for a 143-wing Air Force and both opposed an effort to cut Air Force research and development funds by $68 million in the service's funds.

But Nixon voted for and Humphrey against pigeonholing a military pay raise bill.

Nixon, who said in Chattanooga, Tenn., during the current campaign that he had always voted for TVA, was recorded as voting in the 1952 session to cut that agency's funds by $45.7 million, a move that Humphrey opposed. The Senate subsequently added $14.7 million to TVA's funds as previously approved by the House, with Nixon opposing and Humphrey supporting.

On other spending proposals, Humprey supported and Nixon opposed adding $6.5 million to Bureau of Indian Affairs funds. Nivon voted to cut State Department salaries by 14.4 million and Humphrey voted against the cut. Nixon supported and Humphrey opposed a 10 per cent cut in rivers and harbors funds.

Nixon voted for and Humphrey against the tidelands oil bill, giving the states title to underwater, oil-rich lands, a measure that Truman described as "robbery in broad daylight."

Mike McFarlane was named president when the Liverpool-Calcutta Ruritan Club met Monday night in the Blue Willows Restaurant.

Also selected were Richard Brian, vice president; William Poe, secretary; Theodore Appleby, treasurer, and James Boyd and Ralph Hutchinson, directors.

A donation was made to the United Fund.

Inmates Transferred From Pittsburgh Jail

PITTSBURGH (AP) — Authorities have begun transferring between 150 and 180 inmates from the Allegheny County Jail to the larger County Workhouse to alleviate overcrowdedness which reportedly sparked a 45-minute rampage by prisoners at the jail Tuesday night.

Judge Loran L. Lewis, who issued the transfer order Wednesday, said in the future only prisoners being held on minor charges or awaiting trial will be lodged at the 80-year-old jail in the heart of Pittsburgh.

He said the workhouse in O'Hara Township now is about one-fifth of its 1,000-prisoner capacity.

Highlandtown Group Slates Dinner Nov. 6

Plans for a turkey and ham supper were discussed when the Fidelis Class of the Bethel Presbyterian Church at Highlandtown met Wednesday night with Kenneth Rose and Kathy Rose.

Mrs. Nellie Tice, president, said the event will be held Nov. 6. The time and place will be announced.

A Halloween costume party will be held Oct. 26 at 8:30 p.m. in the church. The CO & M class members will be guests. Lunch was served by the hostess.

Driver Fined, Jailed 3 Days

LISBON — Walter G. Paldon, 54, of 136 E. Washington St., was sentenced to three days in the village jail Tuesday night—his birthday — and was fined a total of $196 including costs.

Paldon pleaded guilty before Mayor Clyde B. Pike to a charge of driving while under the influence of alcohol and was found guilty of malicious destruction of public property.

The mayor fined Paldon $155.50 for driving while intoxicated, $30.50 for breaking a window and added a $10 charge for the glass.

Jailed in lieu of bond after his arrest Monday evening, Paldon broke a window in the jail bullpen. He told the mayor he broke the glass accidentally in attempting to raise the window.

Mayor Pike fined Fred Meeks of Pleasant Heights $50 for striking Hilda Merrill, a member of his family, and $50 for malicious destruction of her property. However, the mayor suspended $70 of the fine and gave Meeks permission to "work out" the $30 with the street crew at $3 per day.

Two drivers forfeited appearance bonds — William P. Pahanish, 18, of Lisbon, operating a motorcycle without a tail light, $10, and Charles Arnfield, 21, Leetonia, driving too fast in fog, $15.

Judge Denies GOP Report

LISBON — County Treasurer Vincent Judge today issued a statement denying he had opposed investment of Columbiana County inactive funds as claimed by Ford McQuilken, county Republican chairman, at the party dinner Saturday.

Judge, a Democrat, said he had notified McQuilken of his stand and requested the GOP leader to retract the claim before today or he, Judge, would issue a public statement. He said McQuilken has not yet complied.

Judge said he had followed the County Commissioners' directive to invest the funds within 24 hours after receiving their notice.

"Commissioners are the only elected officials with power to invest county funds, and any question of the amounts, and why this was not done in prior years, must be answered by them," he said.

"When I learned the commissioners had agreed to pay $25 a month for brokerage fees, I told them, as an experienced banker, I could handle all investments and these appointments would only waste the county's money."

"I received offers from four county banks to handle the purchases without cost, and I personally have received no further pay in my office."

"In fairness to the commissioners, they did place on their journal an order removing the prior entry and, as of this date, no administrative costs have been incurred in the investment program."

"I approve of any legal method of earning or saving money for the taxpayers, and my office shows the lowest cost increase of any courthouse office."

ANN LANDERS

A Question About LSD

By Ann Landers

Dear Ann Landers: In a weak moment I took LSD. I'm a college student, male, 20 years of age. Since that time I've heard LSD alters the chromosomes of the body and one can expect deformed children.

I'm now steering clear of serious romantic involvements because I dare not risk such unhappiness for any girl.

Do you know of any tests to determine if the chromosomes have been damaged to the extent that the children would be deformed? Kindly answer through your column as it would seriously upset my parents if they knew the burden I carry. My anxiety is enough for the entire family.—MICHIGANDER.

-:-

Dear Michigander: I asked Nobel Prize winner Joshua Lederberg, of the Stanford University School of Medicine, one of the foremost authorities on genetics, to answer your question. Here is his reply:

Dear Ann: This is in response to your query about the possibility of LSD's producing deformed babies.

Several investigators have reported such effects, for example Dr. William F. Geber of the department of pharmacology, Medical College of Georgia at Augusta.

It's difficult to pin down the facts precisely and I regard the matter as still controversial in spite of the circumstantial evidence.

There is, however, one possible hazard of LSD which I'd like to mention. We know humans can show long-delayed reactions to doses of LSD. We now must learn to what extent LSD enters the fetus across the placental barrier. So far as I know, there's been no investigation on this vital point.

If Congress continues to slash the budgets for medical research, we may never know the answer. — JOSHUA LEDERBERG, PROFESSOR OF GENETICS.

A Public Affair

Dear Ann: Awhile back you wrote: "Any woman can have an affair — if she sets her standards low enough." Say it again. I think my daughter missed it.

Eldora, age 27, has been seeing a married man for five years. She calls it love. I call it back-alley monkey business with no future.

Eldora hasn't had a real date since she started to sneak around with this rat. He picks her up in bars, on street corners, anything but come to the front door like a man. Eldora's father has been dead 10 years so this man can't be afraid of getting his face punched in.

I've tried to tell my daughter she's throwing away her youth and if she doesn't wake up soon no decent man will have her. Her stock answer: "It's my life. Get off my back."

Why would a smart, attractive girl who could have nice, respectable dates settle for such a shabby relationship? — HEARTSICK MOTHER.

-:-

Dear Mother: Attractive maybe, but smart she isn't. Girls who get involved with married men are stupid and often self destructive. Professional help may be the answer — provided she WANTS an answer.

Ann Landers will be glad to help you with your problems. Send them to her in care of The Review, enclosing a stamped, self-addressed envelope.

ANN LANDERS

A Question About LSD

By Ann Landers

Dear Ann Landers: In a weak moment I took LSD. I'm a college student, male, 20 years of age. Since that time I've heard LSD alters the chromosomes of the body and one can expect deformed children.

I'm now steering clear of serious romantic involvements because I dare not risk such unhappiness for any girl.

Do you know of any tests to determine if the chromosomes have been damaged to the extent that the children would be deformed? Kindly answer through your column as it would seriously upset my parents if they knew the burden I carry. My anxiety is enough for the entire family.—MICHIGANDER.

-:-

Dear Michigander: I asked Nobel Prize winner Joshua Lederberg, of the Stanford University School of Medicine, one of the foremost authorities on genetics, to answer your question. Here is his reply:

Dear Ann: This is in response to your query about the possibility of LSD's producing deformed babies.

Several investigators have reported such effects, for example Dr. William F. Geber of the department of pharmacology, Medical College of Georgia at Augusta.

It's difficult to pin down the facts precisely and I regard the matter as still controversial in spite of the circumstantial evidence.

There is, however, one possible hazard of LSD which I'd like to mention. We know humans can show long-delayed reactions to doses of LSD. We now must learn to what extent LSD enters the fetus across the placental barrier. So far as I know, there's been no investigation on this vital point.

If Congress continues to slash the budgets for medical research, we may never know the answer. — JOSHUA LEDERBERG, PROFESSOR OF GENETICS.

A Public Affair

Dear Ann: Awhile back you wrote: "Any woman can have an affair — if she sets her standards low enough." Say it again. I think my daughter missed it.

Eldora, age 27, has been seeing a married man for five years. She calls it love. I call it back-alley monkey business with no future.

Eldora hasn't had a real date since she started to sneak around with this rat. He picks her up in bars, on street corners, anything but come to the front door like a man. Eldora's father has been dead 10 years so this man can't be afraid of getting his face punched in.

I've tried to tell my daughter she's throwing away her youth and if she doesn't wake up soon no decent man will have her. Her stock answer: "It's my life. Get off my back."

Why would a smart, attractive girl who could have nice, respectable dates settle for such a shabby relationship? — HEARTSICK MOTHER.

-:-

Dear Mother: Attractive maybe, but smart she isn't. Girls who get involved with married men are stupid and often self destructive. Professional help may be the answer — provided she WANTS an answer.

Ann Landers will be glad to help you with your problems. Send them to her in care of The Review, enclosing a stamped, self-addressed envelope.

Lisbon Area News

Mrs. Esther DeTemple 424-5965

The Women's Christian Temperance Union met at the home of Mrs. A. E. Christopher Tuesday afternoon with nine members and a guest present.

Mrs. Mary Bell, president, presided. Mrs. Christopher gave devotions. Members decided to start future meetings at 10 a.m. so they will have time to sew or do work for County Home residents and veterans' hospitals.

Mrs. Fred Shiltz used material from "The Union Signal," a WCTU publication, for the program on "Preparation." After a discussion of a three-year program the Department of Health Education and Welfare is planning on alcoholism, the union took the stand citizens should protest the project as a waste of money.

It was announced that a new commemorative stamp will honor Lucy Stone for her work for women's rights.

The meeting closed with a salute to the flags, the singing of "America," and the benediction. Mrs. Charles Cunningham of E. Lincoln Way will be hostess Nov. 19.

Instead of its regular meeting, the Junior Order of United American Mechanics held a family coverdish dinner Tuesday evening in the American Legion Hall.

Dinner was served to 60 members and guests from Lisbon, Columbiana, Toronto and Youngstown.

Tom Smith, Russell Peppel, Clyde McDevitt and Charles Cannon composed the kitchen committee.

Ralph Drake, county game protector, showed slides of the new Highlandtown Lake. Card games followed.

The Cheerful Workers, a group of north county women at St. Jacob's United Church of Christ, met Tuesday afternoon at the home of Mrs. Ernest Tullis of the Lisbon - Salem Rd.

Mrs. Clyde Farmer was in charge of business. Mrs. Edward Mitchell showed pictures taken on a Canadian trip, including a visit to the World's Fair. A social hour followed. The next meeting will be Nov. 19.

Mrs. Arlene Smith of Van Buren Ave., Salem, daughter of Mrs. Ruth McKee of W. Chestnut St., Lisbon, has returned to her home after several weeks in a Youngstown hospital.

Health, Safety Council Plan Election Oct. 29

LISBON — The Columbiana County Health and Safety Council will elect officers at its annual meeting at 8 p. m. Oct. 29 in the Cooperative Extension Service office, 113 S. Market St.

The council also will elect a representative to the Ohio Rural Health Council, a post formerly held by the late E. S. Kerr of Salem.

Reports will be given by Robert Rice of Salem, chairman of the county comprehensive Health planning committee; Francis Bezdek of Signal, on extended telephone service, and Paul Gipp of Salem and Rosamond Mattevi of Lisbon, on solid waste disposal.

Franklin School Sets Open House

SUMMITVILLE — Open house will be held at Franklin School Nov. 11 at a meeting of the Parent - Teacher Organization as part of the observance of National Education Week.

Pupils' work will be displayed and teachers will be available to talk with parents. Plans for the observance were made at a meeting of the PTO Monday night with Mrs. Helen Brewer presiding.

Mr. and Mrs. William Kelly and Mr. and Mrs. Bliss Blake were named as a ways and means committee. Calendar towels will be sold as a fund-raising project.

The Fashionettes 4-H Club presented a program directed by Mrs. George McPherson, adviser.

Mrs. Dominic Sabatino, secretary, read the minutes and Mrs. David Rogers, treasurer, gave a report.

Halloween Dance Set By Presentation CYO

Plans were made to hold a Halloween dress-up dance Nov. 3 when the Presentation Catholic Youth Organization met Wednesday at the lyceum.

Mary Francis, social chairman, is in charge of arrangements. Members may bring one guest. Records will be played for dancing.

A report was given on a recent dance held by the group. The Rev. John Leonard Michael, assistant pastor, is the counselor.

Mayor At Salineville Fines Three Drivers

SALINEVILLE — Three drivers were fined and two others forfeited bonds at hearings held Wednesday night by Mayor Dwayne Felton.

Jerry E. Smith, 35, of Pleasant Valley Rd., Wellsville, was fined $25 and costs for speeding. Charged with driving left of center, Leonard Gossman, 28, of Salineville RD 2, was fined $10 and costs. Frank Parsons, 21, of E. Main St., Salineville, drew a fine of $25 and costs for "peeling" tires.

Forfeiting bond of $20 was Nancy Lee Brandonisio of Maple Hill, Salineville, on a charge of speeding. Leroy W. Baker, 41, of Ashtabula forfeited $21 and costs on a speeding charge.

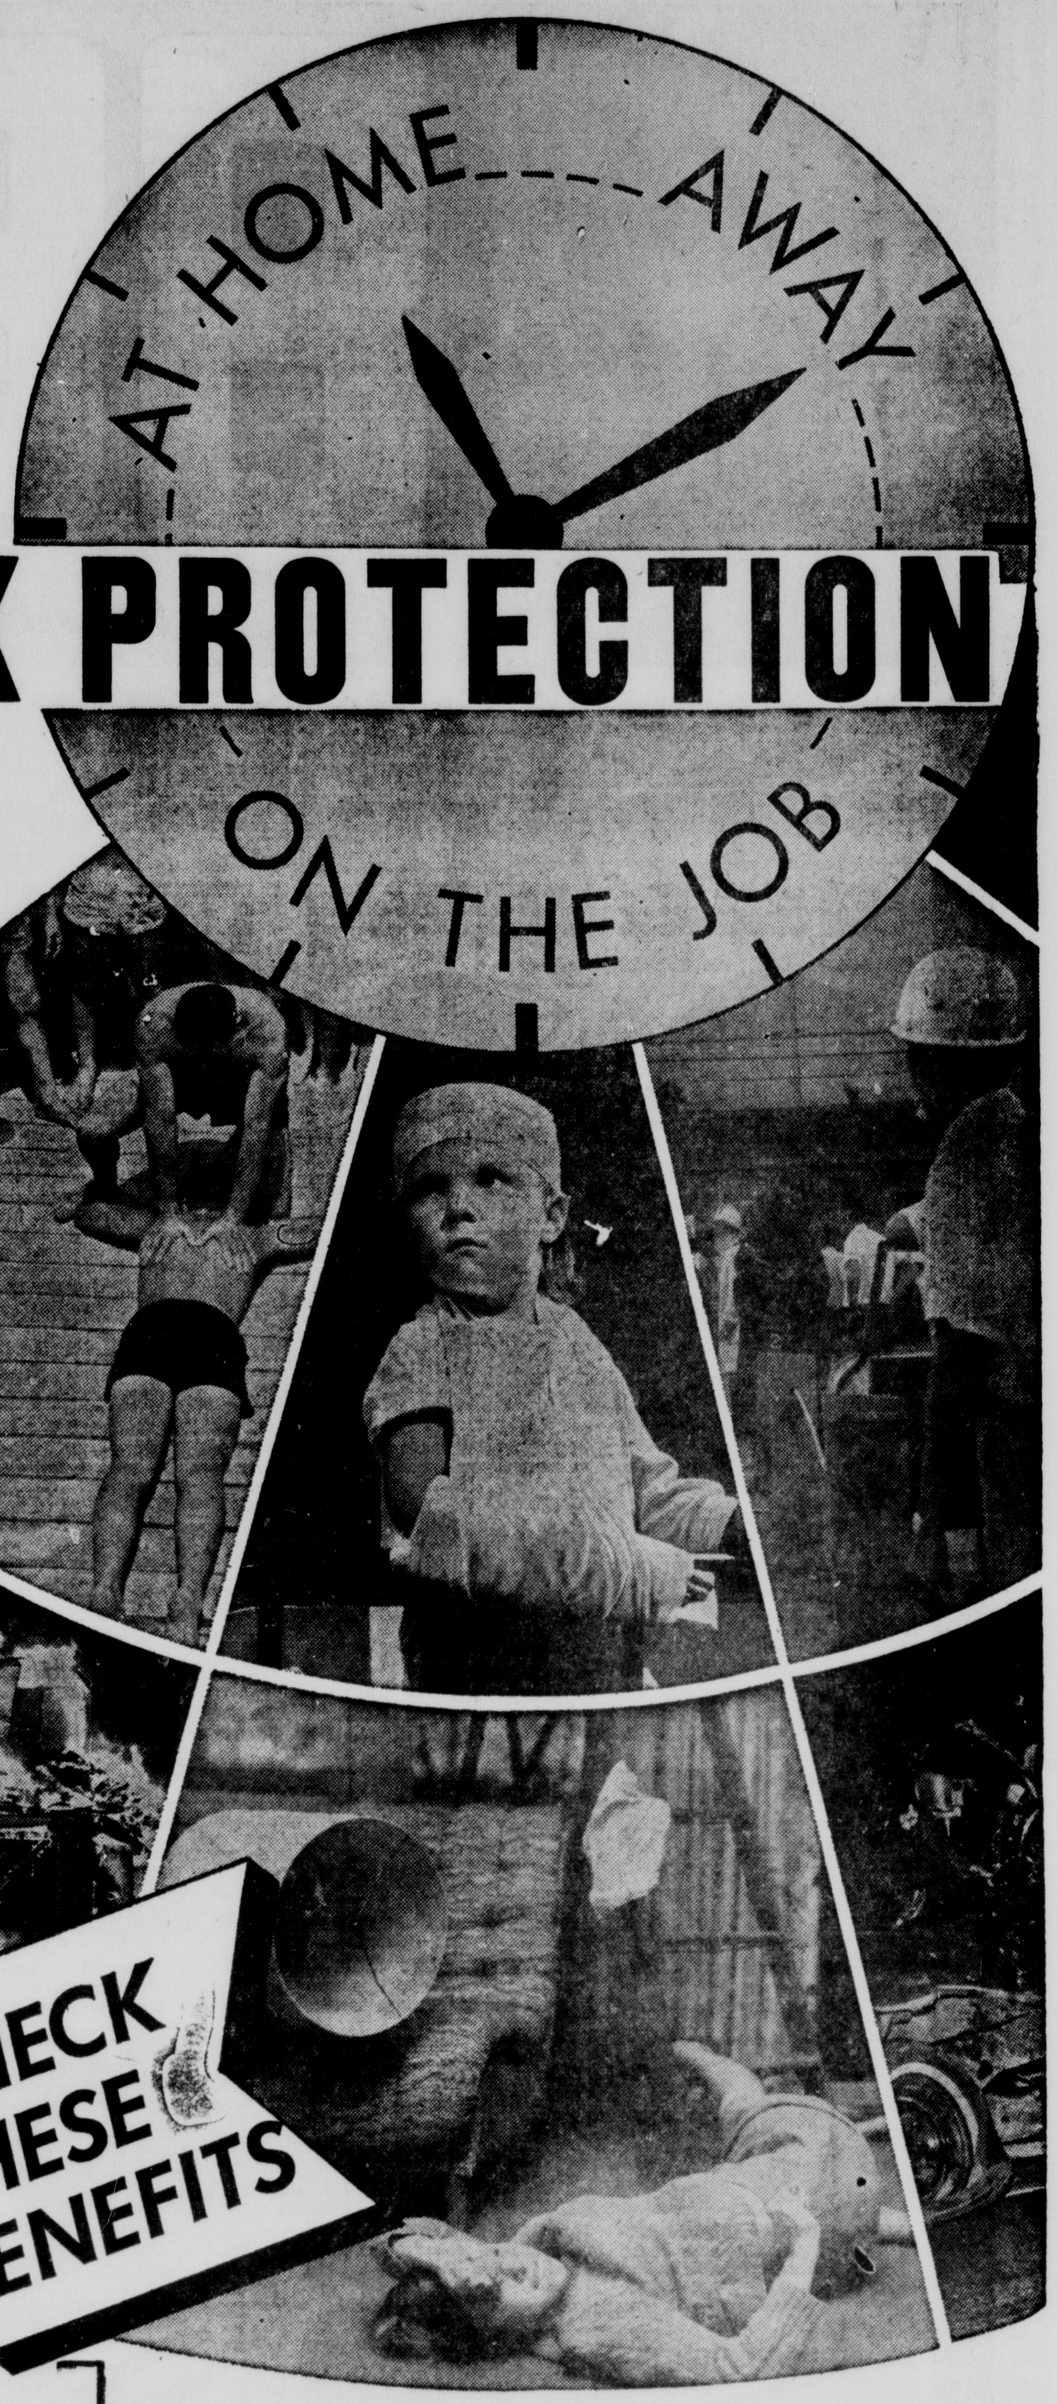
Don't Gamble with accidents!

10c A WEEK BUYS YOU

'ROUND-THE-CLOCK PROTECTION



More than 50,000,000 people are injured each year according to the National Health Survey conducted by the U.S. Public Health Service. In a single year there were 10,400,000 disabling injuries . . . 107,000 deaths. Wage losses alone from these accidents totaled over five billion dollars. Medical fees and hospital expenses cost another $1,800,000,000.

THIS COULD HAPPEN TO YOU OR A MEMBER OF YOUR FAMILY ANY TIME—ANY PLACE . . . in your own home, at work, on the road traveling or at play. If so, HOW WILL YOU PAY THE BILLS.

INSURANCE IS YOUR BEST ANSWER! As a special service to its readers, this newspaper offers such protection for less than 2c a day to readers from 1 to 90 years of age. The policy, issued by Columbus Mutual Life Insurance Company of Columbus, Ohio, won't pay all the bills but it will be an important help should an accident occur.

Wildcat Strike Idles 4,300 At GM Facility

CINCINNATI (AP) — A wildcat strike Monday by some 300 United Auto Workers at the General Motors' Fisher Body Division at Norwood has idled approximately 4,300 production workers at the auto complex.

The total included 2,800 members of Local 674 at the body plant and 1,500 workers, members of the same union, at the Chevrolet plant nearby.

The 300 struck Monday night in protest of a two-week suspension without pay of a union committeeman. The suspension was for using abusive language to a supervisor over the weekend, a union spokesman said.

Union members were notified by union leaders that the strike was unauthorized.

Hundreds Of Thousands Studied

Strokes, Heart Attacks Higher For Long Sleepers

NEW YORK (AP) — A study of hundreds of thousands of Americans shows that the death rate from strokes and coronary heart disease are higher among people who usually sleep long hours at night.

The new statistical link between disease and men's and women's habits showed that the death rate from stroke was "considerably higher" among those who usually slept 9 or 10 hours a night than for those who usually slept 7 hours a night.

For coronary heart disease, the death rate was "generally higher" for those with the same sleeping habits.

The report by Dr. E. Cuyler, Hammond, epidemiologist and statistician for the American Cancer Socity, was given today at Albany, N.Y., Medical College and made available in New York.

The largest figure was in stroke mortality ratios for men 50 to 59 years old. For persons who slept 10 or more hours a night, the death rate was 286 per cent higher than for those who slept 7 hours. The percentage ranged downward to 14 per cent for coronary heart disease deaths in men 60-69.

For women 50-59, the coronary heart disease death rate was 89 per cent higher. Figures were not available for all age groups.

Hammond refrained from giving in his paper a possible reasons for what he called "a brand new finding," but speculated in an interview that long hours of sleep might result from drowsiness caused by the reduced flow of blood to the brain. In this view it would be a symptom.

However, he said, the long hours of sleep could perhaps cause disease by reducing the amount of time a person is active—so he is depositing fat in his body more of the time, rather than burning it up.

For all the data on habits, however, Hammond said scientists have not found a basic cause of heart disease, stroke and aortic aneurysm, which he said account for 60 per cent of all deaths.

"I don't think it's genetic," he said. "I think it's something in the American environment, the way we live. If it is, it should be possible to find out what it is.

"We have at least a fighting chance of finding it."

For coronary heart disease below the age of 60, he continued in his paper, cigarette smoking seems to be the most important factor, with obesity next. Over 60, lack of exercise seems to be most important.

The pattern for stroke is similar, although not identical, he said, adding: "Long hours of sleep seem to be more important in relation to stroke than in relation to coronary heart disease."

The Cancer Society began its epidemiological study in 1959-1960, when more than a million persons were enrolled. The total was reduced for the study to nearly 800,000 men and women between 40 and 79 in 1959, and free of disease.

The study also found higher death rates from aortic aneurysm in men 50 to 69 who slept 8 or 9 hours a night, compared to men who slept 7 hours a night.

A talk on the "uses and abuses of drugs" was given by Harry Comm of the Hersche Drug Stores during a meeting of the Chester Kiwanis Club Tuesday night at City Hall.

Tickets were distributed to members for the annual pancake supper to be held Nov. 13 and 14 from 5 to 8 p. m. Proceeds from the supper will go toward community youth activities.

A gum ball machine contract was returned and approved by the company. The machines will be installed in the near future and merchants are asked to cooperate in this project with proceeds also going to youth activities.

Key Club guests included Joe Gray, president of the Oak Glen club and Bob Milner, vice president. The Key Club representatives announced their club and the Kiwanis Club will participate in Kiwanis Club week. The joint project by both clubs for the week will be presentation of baskets to residents of the Fox Nursing home.

Guests included Clayton Lutton and Joe McMasters.

Wildcat Strike Idles 4,300 At GM Facility

CINCINNATI (AP) — A wildcat strike Monday by some 300 United Auto Workers at the General Motors' Fisher Body Division at Norwood has idled approximately 4,300 production workers at the auto complex.

The total included 2,800 members of Local 674 at the body plant and 1,500 workers, members of the same union, at the Chevrolet plant nearby.

The 300 struck Monday night in protest of a two-week suspension without pay of a union committeeman. The suspension was for using abusive language to a supervisor over the weekend, a union spokesman said.

Union members were notified by union leaders that the strike was unauthorized.

Hundreds Of Thousands Studied

Strokes, Heart Attacks Higher For Long Sleepers

NEW YORK (AP) — A study of hundreds of thousands of Americans shows that the death rate from strokes and coronary heart disease are higher among people who usually sleep long hours at night.

The new statistical link between disease and men's and women's habits showed that the death rate from stroke was "considerably higher" among those who usually slept 9 or 10 hours a night than for those who usually slept 7 hours a night.

For coronary heart disease, the death rate was "generally higher" for those with the same sleeping habits.

The report by Dr. E. Cuyler, Hammond, epidemiologist and statistician for the American Cancer Socity, was given today at Albany, N.Y., Medical College and made available in New York.

The largest figure was in stroke mortality ratios for men 50 to 59 years old. For persons who slept 10 or more hours a night, the death rate was 286 per cent higher than for those who slept 7 hours. The percentage ranged downward to 14 per cent for coronary heart disease deaths in men 60-69.

For women 50-59, the coronary heart disease death rate was 89 per cent higher. Figures were not available for all age groups.

Hammond refrained from giving in his paper a possible reasons for what he called "a brand new finding," but speculated in an interview that long hours of sleep might result from drowsiness caused by the reduced flow of blood to the brain. In this view it would be a symptom.

However, he said, the long hours of sleep could perhaps cause disease by reducing the amount of time a person is active—so he is depositing fat in his body more of the time, rather than burning it up.

For all the data on habits, however, Hammond said scientists have not found a basic cause of heart disease, stroke and aortic aneurysm, which he said account for 60 per cent of all deaths.

"I don't think it's genetic," he said. "I think it's something in the American environment, the way we live. If it is, it should be possible to find out what it is.

"We have at least a fighting chance of finding it."

For coronary heart disease below the age of 60, he continued in his paper, cigarette smoking seems to be the most important factor, with obesity next. Over 60, lack of exercise seems to be most important.

The pattern for stroke is similar, although not identical, he said, adding: "Long hours of sleep seem to be more important in relation to stroke than in relation to coronary heart disease."

The Cancer Society began its epidemiological study in 1959-1960, when more than a million persons were enrolled. The total was reduced for the study to nearly 800,000 men and women between 40 and 79 in 1959, and free of disease.

The study also found higher death rates from aortic aneurysm in men 59 to 69 who slept 8 or 9 hours a night, compared to men who slept 7 hours a night.

FBI Charges Two In Armed Theft

CLEVELAND, Ohio (AP) — FBI agents Wednesday charged two Cleveland men with armed robbery of a Grand Rapids, Mich., fur company.

Clarence Williams, 27, and David Willis, 33, were also charged with unlawful flight to avoid prosecution and interstate transportation of stolen property.

Willis was arrested in Cleveland Wednesday and Williams last Friday.

The two were first arreseid for speeding on the Ohio Turnpike near Fremont Oct. 1 and told a highway patrolman furs in their car were won in a crap game in Chicago.

The FBI said it was discovered later the furs were part of a $30,000 haul taken at gunpoint the previous evening from the Alaska Fur Co. in Grand Rapids.

Improved Martins Ferry Invades Patterson Field Friday

Sports Whirled

By TURK PIERCE
Review Sports Editor

This October is a month to hibernate in front of the TV set.

First the World Series, now the Olympics, along with the rich diet of college and pro football that makes every Sunday a New Year's Day for the armchair grid fan.

The World Series was not up to par, for though the Tigers' comeback made it an exciting series, the only game that was close was the fifth one, where the Tigers came from behind to win 5-3 and stave off elimination.

The Olympics, however, are better than hoped for. Staged for the first time in the Western Hemisphere since the advent of TV, more people, especially Americans, will see more of the games than ever before. One hour shows, partly live, partly taped, can be seen daily at various times on various channels.

Whether it's the spectacle of nations competing peacefully in a troubled world, or the exotic flavor brought to the proceedings by the multigarbed contestants, or just the novelty of certain events on TV, the Olympic telecasts are engrossing. Even weight lifting, which wouldn't be expected to provide thrills, does when you see a 123-pound man clear and jerk 331 pounds.

Volleyball, regarded as a friendly picnic sport in this country, is a violent elbow-skinning battle when played on the international level. Crew and field-hockey become interesting when medals are at stake. Of course the best-known performers are in track, where the U.S. is off to a good start.

EAST LIVERPOOL, despite two losses, is ranked 53rd in the state in the UPI (coaches) high school football poll. The AP has stopped releasing more than the Top 20 schools, an unfortunate decision, to my mind. The top three schools, Upper Arlington, Mentor and Massillon, are the same in both polls, and the top seven almost the same, but the UPI has Cincinnati Roger Bacon and Cleveland St. Joseph in the the Top 10, while the AP rates them much lower. The big difference is Kettering Alter, ranked ninth in the AP and a tie for 48th in UPI. Other schools ranked in the UPI voting are Steubenville 23rd, Winterville tied for 29th, Bellaire St. John's tied for 40th and Minerva tied for 57th.

OUT OF THE aerial circus that was the 58-38 win by Pensacola Naval Air Station over the Youngstown U. football team Saturday come several records for Beaver Local's Dennis Klembara, freshman quarterback for the Penguins, Klembara set records for most yards passing and most yards total offense in a game and tied the marks for completions and most TD passes. For the year Klembara has hit 42 of 96 for 680 yards and eight TDs, with 11 interseptions.

RICK BARRY, freed to play with the Oakland Oaks of the American Basketball Association, averaged 44.5 points a game in his first four exhibitions. He drew crowds of 7,000 in Indianpolis and 4,000 in Minnesota.

Connie Hawkins, the league's MVP last year as a member of the Pittsburgh Pipers, was a 10-day holdout before reporting to Minnesota.

Hout Leads Massillon Over Altoona 30-0

By HAL PARIS
Associated Press Sports Writer

COLUMBUS, Ohio (AP)—Aggressiveness is the trademark of a good high school football player. And no one can accuse Dave Hout, Massillon's junior middle guard, of lacking that quality.

Hout had the dubious distinction of being guilty three times on one play in Massillon's 30-0 victory over Altoona, Pa, Saturday.

On a third quarter punt situation, Hout was offside and then was called for roughing the kicker after the punt. He got to his feet on the runback and was detected for clipping.

Altoona got the ball back but they must have been Hout's only mistakes because he received a 93 per cent grade from Tiger coaches for his performance. He was credited with 12 solo tackles, assisted on four others, caused one fumble and recovered another.

Scholastic sidelights — Unbeaten Mentor, ranked No. 2 in Class AA, finally had its goal line crossed in a 55-7 romp over Berea. A fake field goal attempt paved the way for the Berea touchdown on a pass. Mentor now has outscored its six foes, 229-7.

Rugged Canton McKinley, which has lost only to Niles, limited Steubenville to only 28 yards rushing in a 26-8 victory last Saturday.

Junior quarterback Mark Daniel threw two touchdown passes and ran for two more in Cincinnati Moeller's 48-0 pasting of Cincinnati McNicholas. Moeller, 5-0-1, has a 148-6 scoring advantage.

Wintersville, 6-0, has won 23 straight over three seasons under the guidance of Coach Bob Kettlewell, a former West Virginia star. The Golden Warriors get their stiffest test Nov. 2 against Warren Harding.

Brilliant of Jefferson County, nipped Cadiz 12-8 last week for its sixth straight victory and is looking for its first unbeaten season in school history.

Edison High in Milan, ranked No. 7 in Class A, has a few boys over the dividing point and is a Class AA school. Votes for Edison in The AP poll for small school honors will not be counted.

Mike McKee, a second team all-state performer from Newark Catholic, scored five touchdowns and passed for four more in a 66-6 rout of Centerburg.

Steve Bennett, a fullback on Danville's unbeaten team, scored five TDs in a 36-6 triumph over New Albany. Danville and No. 1 ranked Newark Catholic collide Nov. 1.

Two Marion Catholic juniors are running wild. Halfback Don Jesionek has gained 1,256 yards and has scored 86 points in six games. Fullback Jim Taylor has rushed for 819 yards in five games and has scored 144 points. Catholic is 4-2 with both losses to AA schools.

Tom Bazzoli, Dover St. Joseph quarterback, has passed for 808 yards in six games. Newcomerstown touchdown twins Whit Parks and Bruce Widder have combined for 134 points.

Sandusky St. Mary's only loss in a 5-1 season was a 16-0 decision to AA Sandusky Perkins. Rich Rose scored 23 points in Southern Local's 28-26 win over Wellsville. He had 235 yards rushing and intercepted a pass and recovered a fumble on defense.

No. 7 Shelby has 20 straight victories with four shutouts this year in six outings.

Cedarville, 5-1, which upset Mechanicsburg 10-8 last weekend, held the losers to 39 yards rushing and 64 passing.

Big game this week pits No. 5 Warren Western Reserve against No. 8 Niles at McKinley, Massillon, No. 3, takes on twice-beaten Steubenville and No. 4 Elyria catches twice-beaten but always formidable Sandusky.

Fight Results

ROANOKE, Va.—Garry Garber, 118, Potomac, Md., outpointed Billy Brown, 118, Philadelphia, 8.

ROCHESTER, Minn. — Pat O'Connor, 158, Rochester, stopped Wayne Bletcher, 163, South Bend, Ind., 1.

Riders Have 10 Vets Starting

By TURK PIERCE
Review Sports Editor

A veteran Martins Ferry team appears at Patterson Field Friday night as East Liverpool tries to get back into the win column after two losses the last three weeks.

Martins Ferry is 2-4 on the season, but is vastly improved over the team the Potters routed 46-0 at Martins Ferry last year.

Friday night will be homecoming for East Liverpool.

The Purple Riders broke a 28-game losing streak by beating Bridgeport 14-6, and also downed Wellsville 40-8. Losses came to Weirton 19-7, Marietta 18-6, Wheeling 31-13 and Follansbee 21-9. The Riders have nine or 10 lettermen starting, almost all of whom started last year.

Quarterback is Rick Weiskircher, 155, a senior, who played halfback last season. He has scored four TDs, while halfback Dave Bruney, 185, a senior, leads the team with five touchdowns. The fullback is Larry Duncan, 160, another senior letterman, while Sam Twardoski, 180, who lettered as a sophomore at quarterback last season, may start at halfback. Dan Jones, 145, may start instead of Twardoski.

Tim Hill, 190, and Gerald Spencer, 180, are the ends; Manuel Pandelos, 210, and Ben Cappelletti, 210, the tackles; Jim Pearsol, 190, and Ed Agostinelli, 205, the guards, and John Griffiths, 200, the center. All are lettermen except Griffiths, all are seniors except Spencer.

The Potters, 4-2, have a score to settle with Martins Ferry because the Purple Riders eliminated the Potters in district basketball play last winter. Twardoski, Weiskircher and Hill are cage starters.

With the continued absence of Jim Musuraca and Herb Purton, the Potter running backs will be Nelson (Sonny) Clark, Tom Chambers and Steve (Travis) Williams. Dan Cunningham is the quarterback. Tom Gooding will be the tight end if Jerry Christian is still not recovered from his ankle sprain. John Johnson is the split end, backed by Jim Moore, while Don Cochran and Stanley Iceman the tackle spots. The center of the line is unsettled.

Floyd Cranston has taken over at middle guard on defense, with Cochran and Ice flanking him and Jack Melvin and John Haney manning the defensive end posts.

Black Fist Protest Booed At Olympics

By WILL GRIMSLEY
Associated Press Sports Writer

MEXICO CITY (AP) — The reaction around Olympic Village ranged from "good show" to "send 'em home" today to the black-fist demonstration by U.S. sprinters Tommie Smith and John Carlos at the normally sacrosanct medal ceremonies.

"I think it's a shame and a disgrace," said Bill Toomey, America's decathlon champion from Laguna, Calif. "There is no place for personal spleen or politics in the Olympic Games."

"We all thought it was a bloody good show," commented John Wetton, Great Britain's 1,500-meter hope, with a nod of agreement from teammates Andrew Todd and John Davis. "It's bully that these blokes had nerve enough to express their feelings." All three are white.

While the buzzing Village debated the propriety of the U.S. Negroes' deportment on the Olympic victory stand Wednesday, people wondered what the black athletes might have—if anything—for an encore.

And another popular query: "What is Avery Brundage going to say?

Brundage, controversial 81-year-old president of the International Olympic Committee, spent a pleasant day at Acapulco, where the yachts were sailing peacefully, and was not available immediately for comment.

Absence of the Chicago hotel owner prevented an immediate confrontation with two of the American militant blacks who have insisted they don't want to receive medals from Brundage's hands.

Also there was speculation among some connected with the U.S. delegation that there might be disciplinary action. The best bet is there will be none. Such a move would wreck the American team.

Smith, world record holder in the 200 meters, won the race in 19.8 seconds, setting a new mark. His teammate, Carlos from San Jose, Calif., a militant spokesman in the Negro athletes' civil rights movement, finished third behind Peter Norman of Australia.

At the medal presentation ceremonies, conducted by Britain's Lord Burghley, Smith wore a black glove on his right hand and Carlos a black glove on his left.

Smith had a black scarf around his neck. Carlos wore beads. Both held a single shoe, symbolizing another protest against a ban on a certain manufacturer's product.

As the band played the Star Spangled Banner, Smith thrust his gloved right hand and Carlos his black-sheathed left toward the sky in a Nazi-like salute.

Both glued their eyes on the ground and refused to look at the American flag as it was being hoisted to the top of the mast at one end of the huge saucer, holding some 60,000 fans.

The stadium rocked with boos and cat-calls and some of the spectators made thumbs-down gestures as they would to a Mexican matador preparing for the kill.

Over the stands, the wives of the two athletes laughed heartily with friends.

"Wait until Avery sees this," said Mrs. Smith. "He'll die."

Moments later in the stadium press interview room, packed with reporters from many nations, Carlos, who acted as spokesman, cut loose a bitter tirade at the white social structure and the many of them Mexicans fans who had jeered him.

"They look upon us as nothing but animals," he said. "Low animals, roaches and ants. I want you to print this and print it right. If white people don't care to see black men perform they should not come out to the stadium."

Then he added:

"We are sort of show horses out there for the white people. They give us peanuts, pat us on the back and say, 'Boy, you did fine.'

"What do they think? It's U.S. black athletes who threatened to boycott and the black athletes of Africa, who are winning the medals."

At the hectic interview sessions, the tall, bearded Carlos took his bronze medal from around his neck and tossed it to his wife, standing in a yellow dress at the fringe of the crowd of reporters.

"Here, honey, this is yours," he said. "I don't want it."

Then he added:

"The next time I go to an Olympics, I will pay my way and go as a spectator."

The bearded Smith, like Carlos wearing a large button which said Olympic Project for Civil Rights, left most of the talking to his teammate, but he never indicated he disagreed with a word. He nodded repeatedly.

Smith, Seagren Win Gold Medals

By BOB GREEN
Associated Press Sports Writer

MEXICO CITY (AP) — Black, not gold, became the dominant color of these troubled 19th Olympic Games today.

As America's powerful forces moved steadily ahead in their quest of gold medals, and the cache should increase substantially with the start of swimming, the dark cloud of racial unrest overshadowed the record-breaking performances of the U.S. athletes.

Tommie Smith and John Carlos raised high the black-gloved fist of racial protest Wednesday while still on the podium after receiving their medals for a 1-3 finish in the 200-meter dash.

"White America would not understand" the gesture, Carlos, of San Jose, Calif., said later. "They recognize me only when I do something bad and they call me 'Negro.'"

They accepted their medal from Lord Burghley of England. Both had said they would not accept a medal from International Olympic Committee President Avery Brundage, who was in Acapulco watching the Olympic sailing.

During the press conference Carlos turned to his wife and handed her the medal. "This is yours," he said. "I do not want it."

He then said he would not attend another Olympics unless he paid his own way there, a broad hint of a boycott of the 1972 Games in Munich, Germany.

Smith, who won in 19.8, better than the listed world mark, listened intently, nodding from time to time. Carlos has a pending mark of 19.7, but it may not be allowed because of the brush-type shoe he wore in the race.

Peter Norman of Australia was second, just edging Carlos.

It was only one of a flock of world marks to fall. Bob Seagren of Los Angeles picked up America's only other gold medal of the day with 17-8½ inches, better than the listed record of 17-7¾. Seagren, however, has a pending mark of 17-9.

George Young, Casa Grande, Calif., won the other U.S. medal Wednesday, a bronzed for third in the 5,000-meter steeplechase. Amos Biwott of Kenya won it in 8:30.8 and his teammate, Benjamin Kogo, was second in 8:51.6. Young was timed in 8:51.8.

That gave the United States a total of 12 medals, six of them gold. But Russia, the other giant of the Games, closed up a bit, winning two events and pushing its total medal collection eight, three of them gold.

Russia's two victoreis came from Yanis Lusis in the javelin with a throw of 295-2½, an Olympic record, and from Victor Kurentsov in middleweight weightlifting with a total hoist of 1,046¾ pounds, an Olympic record. He also set a world record with a clean and jerk of 312½ pounds.

The United States was blanked in both, though Russell Knipp, Chicago, was fourth in weightlifting, just 5¾ pounds short of the bronze.

In the other finals, petite Colette Besson of France won the women's 400 meters in 52 seconds flat, Ingrid Becker of West Germany took the women's pentathlon with a total of 5,098 points and Ian Drimba of Rumania won the men's fencing foil final with a 4-1 record.

Seagren's victory in the pole vault was packed with drama, and a heart-breaker for teammate John Pennel.

Seagren, Claus Schiprowski of West Germany and Wolfgang Nordwig of East Germany all clered 17-8½. Then all three missed at 17-10½.

Seagren won on fewer misses. Seagren and Schiprowski each had one miss at 17-8½, and Nordwig had two. However, at 17-6¾, Schiprowski had one miss and Seagren passed the attempt, counting as a victory.

"I felt confident the way everyone was jumping we would go to the higher height so I didn't think I was taking any risk," he said.

Pennel also cleared at 17-8½ but his pole went under the bar and he was declared out, finishing fifth in the 7½ hour competition.

The U.S. unbeaten basketball team turned back previously unbeaten and highly regarded Yugoslavia 73-58 while Russia remained unbeaten with an 81-56 romp over Bulgaria.

Improved Martins Ferry Invades Patterson Field Friday

Sports Whirled

By TURK PIERCE

This October is a month to hibernate in front of the TV set.

First the World Series, now the Olympics, along with the rich diet of college and pro football that makes every Sunday a New Year's Day for the armchair grid fan.

The World Series was not up to par, for though the Tigers' comeback made it an exciting series, the only game that was close was the fifth one, where the Tigers came from behind to win 5-3 and stave off elimination.

The Olympics, however, are better than hoped for. Staged for the first time in the Western Hemisphere since the advent of TV, more people, especially Americans, will see more of the games than ever before. One hour shows, partly live, partly taped, can be seen daily at various times on various channels.

Whether it's the spectacle of nations competing peacefully in a troubled world, or the exotic flavor brought to the proceedings by the multi-garbed contestants, or just the novelty of certain events on TV, the Olympic telecasts are engrossing. Even weight lifting, which wouldn't be expected to provide thrills, does when you see a 123-pound man clear and jerk 331 pounds.

Volleyball, regarded as a friendly picnic sport in this country, is a violent elbow-skinning battle when played on the international level. Crew and field-hockey become interesting when medals are at stake. Of course the best-known performers are in track, where the U.S. is off to a good start.

EAST LIVERPOOL, despite two losses, is ranked 53rd in the state in the UPI (coaches) high school football poll. The AP has stopped releasing more than the Top 20 schools, an unfortunate decision, to my mind. The top three schools, Upper Arlington, Mentor and Massillon, are the same in both polls, and the top seven almost the same, but the UPI has Cincinnati Roger Bacon and Cleveland St. Joseph in the the Top 10, while the AP rates them much lower. The big difference is Kettering Alter, ranked ninth in the AP and a tie for 48th in UPI. Other schools ranked in the UPI voting are Steubenville 23rd, Winterville tied for 29th, Bellaire St. John's tied for 40th and Minerva tied for 57th.

OUT OF THE aerial circus that was the 58-38 win by Pensacola Naval Air Station over the Youngstown U. football team Saturday come several records for Beaver Local's Dennis Klembara, freshman quarterback for the Penguins, Klembara set records for most yards passing and most yards total offense in a game and tied the marks for completions and most TD passes. For the year Klembara has hit 42 of 96 for 680 yards and eight TDs, with 11 interseptions.

RICK BARRY, freed to play with the Oakland Oaks of the American Basketball Association, averaged 44.5 points a game in his first four exhibitions. He drew crowds of 7,000 in Indianpolis and 4,000 in Minnesota.

Connie Hawkins, the league's MVP last year as a member of the Pittsburgh Pipers, was a 10-day holdout before reporting to Minnesota.

Hout Leads Massillon Over Altoona 30-0

By HAL PARIS
Associated Press Sports Writer

COLUMBUS, Ohio (AP)—Aggressiveness is the trademark of a good high school football player. And no one can accuse Dave Hout, Massillon's junior middle guard, of lacking that quality.

Hout had the dubious distinction of being guilty three times on one play in Massillon's 30-0 victory over Altoona, Pa, Saturday.

On a third quarter punt situation, Hout was offside and then was called for roughing the kicker after the punt. He got to his feet on the runback and was detected for clipping.

Altoona got the ball back but they must have been Hout's only mistakes because he received a 93 per cent grade from Tiger coaches for his performance. He was credited with 12 solo tackles, assisted on four others, caused one fumble and recovered another.

Scholastic sidelights — Unbeaten Mentor, ranked No. 2 in Class AA, finally had its goal line crossed in a 55-7 romp over Berea. A fake field goal attempt paved the way for the Berea touchdown on a pass. Mentor now has outscored its six foes, 229-7.

Rugged Canton McKinley, which has lost only to Niles, limited Steubenville to only 28 yards rushing in a 26-8 victory last Saturday.

Junior quarterback Mark Daniel threw two touchdown passes and ran for two more in Cincinnati Moeller's 48-0 pasting of Cincinnati McNicholas. Moeller, 5-0-1, has a 148-6 scoring advantage.

Wintersville, 6-0, has won 23 straight over three seasons under the guidance of Coach Bob Kettlewell, a former West Virginia star. The Golden Warriors get their stiffest test Nov. 2 against Warren Harding.

Brilliant of Jefferson County, nipped Cadiz 12-8 last week for its sixth straight victory and is looking for its first unbeaten season in school history.

Edison High in Milan, ranked No. 7 in Class A, has a few boys over the dividing point and is a Class AA school. Votes for Edison in The AP poll for small school honors will not be counted.

Mike McKee, a second team all-state performer from Newark Catholic, scored five touchdowns and passed for four more in a 66-6 rout of Centerburg.

Steve Bennett, a fullback on Danville's unbeaten team, scored five TDs in a 36-6 triumph over New Albany. Danville and No. 1 ranked Newark Catholic collide Nov. 1.

Two Marion Catholic juniors are running wild. Halfback Don Jesionek has gained 1,256 yards and has scored 86 points in six games. Fullback Jim Taylor has rushed for 819 yards in five games and has scored 144 points. Catholic is 4-2 with both losses to AA schools.

Tom Bazzoli, Dover St. Joseph quarterback, has passed for 808 yards in six games. Newcomerstown touchdown twins Whit Parks and Bruce Widder have combined for 134 points.

Sandusky St. Mary's only loss in a 5-1 season was a 16-0 decision to AA Sandusky Perkins. Rich Rose scored 25 points in Southern Local's 28-26 win over Wellsville. He had 235 yards rushing and intercepted a pass and recovered a fumble on defense.

No. 7 Shelby has 20 straight victories with four shutouts this year in six outings.

Cedarville, 5-1, which upset Mechanicsburg 10-8 last weekend, held the losers to 39 yards rushing and 64 passing.

Big game this week pits No. 5 Warren Western Reserve against No. 8 Niles at McKinley, Massillon, No. 3, takes on twice-beaten Steubenville and No. 4 Elyria catches twice-beaten but always formidable Sandusky.

Riders Have 10 Vets Starting

By TURK PIERCE
Review Sports Editor

A veteran Martins Ferry team appears at Patterson Field Friday night as East Liverpool tries to get back into the win column after two losses the last three weeks.

Martins Ferry is 2-4 on the season, but is vastly improved over the team the Potters routed 46-0 at Martins Ferry last year.

Friday night will be homecoming for East Liverpool.

The Purple Riders broke a 28-game losing streak by beating Bridgeport 14-6, and also downed Wellsville 40-8. Losses came to Weirton 19-7, Marietta 18-6, Wheeling 31-13 and Follansbee 21-9. The Riders have nine or 10 lettermen starting, almost all of whom started last year.

Quarterback is Rick Weiskircher, 155, a senior, who played halfback last season. He has scored four TDs, while halfback Dave Bruney, 185, a senior, leads the team with five touchdowns. The fullback is Larry Duncan, 160, another senior letterman, while Sam Twardoski, 180, who lettered as a sophomore at quarterback last season, may start at halfback. Dan Jones, 145, may start instead of Twardoski.

Tim Hill, 190, and Gerald Spencer, 180, are the ends; Manuel Pandelos, 210, and Ben Cappelletti, 210, the tackles; Jim Pearsol, 190, and Ed Agostinelli, 205, the guards, and John Griffiths, 200, the center. All are lettermen except Griffiths, all are seniors except Spencer.

The Potters, 4-2, have a score to settle with Martins Ferry because the Purple Riders eliminated the Potters in district basketball play last winter. Twardoski, Weiskircher and Hill are cage starters.

With the continued absence of Jim Musuraca and Herb Purton, the Potter running backs will be Nelson (Sonny) Clark, Tom Chambers and Steve (Travis) Williams. Dan Cunningham is the quarterback. Tom Gooding will be the tight end if Jerry Christian is still not recovered from his ankle sprain. John Johnson is the split end, backed by Jim Moore, while Don Cochran and Stanley Iceman the tackle spots. The center of the line is unsettled.

Floyd Cranston has taken over at middle guard on defense, with Cochran and Ice flanking him and Jack Melvin and John Haney manning the defensive end posts.

Black Fist Protest Booed At Olympics

By WILL GRIMSLEY
Associated Press Sports Writer

MEXICO CITY (AP) — The reaction around Olympic Village ranged from "good show" to "send 'em home" today to the black-fist demonstration by U.S. sprinters Tommie Smith and John Carlos at the normally sacrosanct medal ceremonies.

"I think it's a shame and a disgrace," said Bill Toomey, America's decathlon champion from Laguna, Calif. "There is no place for personal spleen or politics in the Olympic Games."

"We all thought it was a bloody good show," commented John Wetton, Great Britain's 1,500-meter hope, with a nod of agreement from teammates Andrew Todd and John Davis. "It's bully that these blokes had nerve enough to express their feelings." All three are white.

While the buzzing Village debated the propriety of the U.S. Negroes' deportment on the Olympic victory stand Wednesday, people wondered what the black athletes might have—if anything—for an encore.

And another popular query: "What is Avery Brundage going to say?

Brundage, controversial 81-year-old president of the International Olympic Committee, spent a pleasant day at Acapulco, where the yachts were sailing peacefully, and was not available immediately for comment.

Absence of the Chicago hotel owner prevented an immediate confrontation with two of the American militant blacks who have insisted they don't want to receive medals from Brundage's hands.

Also there was speculation among some connected with the U.S. delegation that there might be disciplinary action. The best bet is there will be none. Such a move would wreck the American team.

Smith, world record holder in the 200 meters, won the race in 19.8 seconds, setting a new mark. His teammate, Carlos from San Jose, Calif., a militant spokesman in the Negro athletes' civil rights movement, finished third behind Peter Norman of Australia.

At the medal presentation ceremonies, conducted by Britain's Lord Burghley, Smith wore a black glove on his right hand and Carlos a black glove on his left.

Smith had a black scarf around his neck. Carlos wore beads. Both held a single shoe, symbolizing another protest against a ban on a certain manufacturer's product.

As the band played the Star Spangled Banner, Smith thrust his gloved right hand and Carlos his black-sheathed left toward the sky in a Nazi-like salute.

Both glued their eyes on the ground and refused to look at the American flag as it was being hoisted to the top of the mast at one end of the huge saucer, holding some 60,000 fans.

"What do they think? It's U.S. black athletes who threatened to boycott and the black athletes of Africa, who are winning the medals."

At the hectic interview sessions, the tall, bearded Carlos took his bronze medal from around his neck and tossed it to his wife, standing in a yellow dress at the fringe of the crowd of reporters.

"Here, honey, this is yours," he said. "I don't want it."

Penguins Tie Toronto 2-2 In Penalty-Filled Game

By The Associated Press

Jim Pappin, Pat Stapleton and Jim Dorey had quite a session Wednesday night in the National Hockey League.

Pappin, who scored only 13 goals for Toronto last year, fired a three-goal hat trick, and defenseman Stapleton, surprisingly the league's leading scorer, added a goal and four assists as the Chicago Black Hawks crushed Minnesot 10-4.

Dorey, meanwhile, was at work with his fists. The rookie defenseman of the Toronto Maple Leafs set an NHL record with 38 minutes in penalties during a wild 2-2 tie with Pittsburgh.

Elsewhere, Montreal rallied to beat St. Louis 4-2 in the first rematch of last season's Stanley Cup finalists, New York downed Philadelphia 3-1 and Boston edged Oakland 2-1.

In coasting to their third straight triumph, the Black Hawks stunned Minnesota goalie Cesare Maniago with a five-goal barrage in the first period. Dennis Hull and Pappin got two each and Stan Mikita one. Pappin netted his third tally in the second period.

Mike Walton's goal with just over five minutes to play gained Toronto its tie but the high spot of the game was a second-period brawl among Dorey, Toronto goalie Al Smith and Pittsburgh's Ken Schinkel, Keith McCreary and John Arbour.

Dorey, who earlier picked up three minor penalties, was given two minutes for high sticking, two five-minute majors for fighting, an automatic 10-minute misconduct penalty and a game misconduct, which counts as 10 minutes.

The old mark of 37 minutes was set Oct. 19, 1960, by Reg Fleming, then with Chicago.

St. Louis goalie Jacques Plante, a former Montreal star, held the Canadiens off for 48 minutes but third-period goals by John Ferguson, Yvan Cournoyer and Jacques Lemaire enabled the Flying Frenchmen to overcome a 2-1 deficit.

Goalie Doug Favell of Philadelphia was sensational for 30 minutes before New York broke through with goals by Rod Gilbert, Bob Nevin and Jean Ratelle for Coach Boom Boom Geoffrion's first victory.

Boston built a 2-0 lead in gaining its third straight victory and then withstood an Oakland comeback. Eddie Shack and Johnny Bucyk produced the Bruins' goals before Ted Hampson scored for the Seals late in the second period.

Monroe, Unseld Lead Bullets Over Pistons

By The Associated Press

Earl "The Pearl" Monroe, last season's Rookie of the Year, scored 23 points—seven in a two-minute stretch—as the Baltimore Bullets built up a 109-100 lead en route to a 124-116 victory over Detroit in a National Basketball Association opener Wednesday night.

And in Westley Unseld, the Bullets might have found a badly needed center. The rookie from Louisville, the Bullets' top draft choice, grabbed 22 rebounds and contributed eight points.

In other action, Cincinnati topped Atlanta 125-110 and Chicago downed the new Milwaukee Bucks 89-84.

Gus Johnson and Bob Ferry also played important roles in Baltimore's victory. Johnson scored 20 of his 29 points in the first half, and Ferry came off the bench to score 13 in the second half. As usual, Dave Bing was the key man for Detroit, scoring 39 points and getting eight assists.

Cincinnati's Oscar Robertson was held to four points in the first half, but the Big O broke loose for 16 in the third quarter to break open a close game and lead the Royals to victory. Robertson and Connie Dierking led the Royals with 24 points. Lou Hudson topped Atlanta with 23.

Chicago made its record 2-0 and ruined Milwaukee's debut behind the 23-point performance of Flynn Robinson. Milwaukee held a 47-46 halftime lead, but Chicago pulled ahead to stay in the third period. Guy Rodgers led Milwaukee with 16 points.

Rounding out the Top Ten are Western Kentucky, which leaped from 10th to fourth; Texas AI, New Mexico Highlands, Weber State, Northern Michigan, Chattanooga, and Arkansas State.

Morgan State tumbled from ninth to 11th although a 19-18 victor over Maryland State, and Lenoir Rhyne, the No. 8-ranked team last week, skidded all the way to 20th place after losing to Appalachian 41-28.

Sports Quiz

Here is a sports quiz to test the knowledge of area sports fans.

The quiz will appear in the Review every Thursday, along with the answers to the preceding week's quiz and the names of the people who got the most questions right. Winners will receive two tickets to a Pittsburgh Penguins Hockey game of their choice.

The questions are not meant to be easy and pertain in many cases to what is sometimes called "sports trivia". Answers must be received at the Review by noon on Wednesdays, either in person or by mail.

Jack Vodrey of Park Blvd., the only entry last week, stumbled home with four right answers. He knew that the longest World Series game was Oct. 9, 1916, with Boston edging Brooklyn 2-1 in 14 innings; that the 1956 Olympics in Melbourne, Australia were the only games in the Southern Hemisphere; that a statue of Finn track great Paavo Nurmi stands outside the Olympic stadium in Helsinki, and that Nate Brooks, in 1952, was the last U.S. Olympic flyweight boxing champion.

He did not know that Clarence Mitchell hit into the only unassisted triple play in World Series history; that an American named Loriz got a car ride in the 1904 Olympics in St. Louis; that Rome was assigned the 1908 games but refused the priveledge; that Bill Russel, who played on the U.S. Olympic basketbal team, once high-jumped 6-9¼; that Bob Kurland, William Houghland and Burdette Haldorson played on two different U.S. Olympic basketbal teams; or that the U.S. beat Canada 18-8 in the first final Olympic basketball game in 1936.

This weeks questions:

1. Who was the only American to win an individual Olympic medal in cycling?
2. Who were the two Americans to win individual Olympic fencing medals?
3. India has won the Olympic Field Hockey event every year but one since 1920. Who won the year India lost?
4. What U.S. university has won the most Olympic eight-man crew gold medals?
5. What was last non-European nation to win the Olympic soccer gold medal?
6. What swimmer, who won gold medals the last three Olympics, was kicked off the team for hi-jinks in Tokyo?
7. Who won medals in the men's 800-meter run in both the 1964 and 1968 Olympics?
8. Who won medlas in the men's 10,000-meter run in both the 1964 and 1968 Olympics?
9. Who won the 1,500-meter and 5,000-meter gold medals within 1¼ hours?
10. Who is the only non-American to win a medal of any kind in the 110-meter hurdles since 1936?

Mel Farr Offensive NFL Player

NEW YORK (AP) — In Mel Farr's own book, the day he had against the Chicago Bears Sunday was the best in his brief pro football career.

Farr carried the ball 17 times for 138 yards, caught six passes for 72 yards and scored three touchdowns in the 28-10 victory of the Detroit Lions.

"That," said Farr, "is achievement. That game last year was a waste. Sure, I gained a lot of yards (197 against Minnesota in 1967) but I didn't score and we didn't win."

Farr's performance earned him The Associated Press honors as the offensive player of the week in the National Football League.

Bill Munson hit Farr with a 33-yard scoring pass for one touchdown and the former UCLA star ran over from the nine and one.

As a result of the day's action, Farr ranked third in the rushing race with 345 yards on 75 carries, trailing only Gale Sayers of the Bears and Leroy Kelly of Cleveland. Farr's seven touchdowns (three running and four receiving) made him fourth in scoring with 42 points.

Bob Jacobs Of Wyoming Top Kicker

NEW YORK (AP) — Sophomore Bob Jacobs, Wyoming's talented kicker, is the successor to Jerry DePoyster, who scored more points by kicking than any other player in college football history before graduating last year.

Jacobs is off to a rousing start in an effort to outdo his predecessor. He has 36 kick points in his first five varsity games, according to figures released today by the National College Sports Service. That is eight points more than DePoyster had at the same stage enroute to his record 182 total.

John Riley of Auburn is second with 29—one more than Kenneth Crots of Toledo.

Jerry Levias of Southern Methodist maintained his pass receiving lead with 38 in four games for 568 yards and four touchdowns. Sammy Milner of Mississippi State moved into second place with 32 catches for 411 yards.

Bobby Hall of North Carolina State leads in kickoff returns with 15 for 340 yards, while Jeff Allen of Iowa State has 11 for 336 yards. Larry Alford is the top punt returner with 13 for 274 yards.

Midland Juniors Hand Baden 1st Loss

The Midland Junior High football team won its third game in four starts yesterday, nipping Baden - Economy 14-13 at the losers' field.

Larry Slappy scored both Midland TDs, on runs, with Butch Rosepilar and Mike Smith adding the conversions.

Jeff Fink scored twice for Baden, with Keith Kuraska getting the conversion. Baden-Economy tried a pass following its second TD, but though it was completed, it was short. B-E drove to the Midland 18 as time ran out. It was the first loss for B-E after three wins.

Midland hosts Monaca Wednesday.

The Charleston Gazette

More than 500 athletes and 175 schools will be competing in the meet. Last year's meet was held at Hayward State in Hayward, Calif.

The first mention of AC hosting the nationals came last spring when Coach Meade Burnett's team took a pair of fifth places in its first trip in recent years to the nationals.

NCAA officials then revealed that they "have heard nothing but praise" about Ashland College and its fine facilities, including a new, all - weather track.

Fred Martinelli has been named the meet director and Burnett the meet manager.

This will be the first time the track and field championships, on either the university and college level, have come to Ohio.

Sonny Liston Will Fight In Pittsburgh

PITTSBURGH (AP) — Former heavyweight champion Sonny Liston is scheduled to meet an unidentified opponent in a benefit for Pennsylvania's first heart transplant patient, Benolik, a former fight promoter.

"We saw the announcement about Sonny on television," said Mrs. Anolik. "Archie Litman announced there would be a fight while Ben was still in the hospital," she said, "but we didn't know who was going to do the boxing."

Litman, a boxing promoter, said Wednesday the proceeds of the match will go to Anolik, who had Liston on boxing cards at the beginning of the boxer's career.

Penguins Tie Toronto 2-2 In Penalty-Filled Game

By The Associated Press

Jim Pappin, Pat Stapleton and Jim Dorey had quite a session Wednesday night in the National Hockey League.

Pappin, who scored only 13 goals for Toronto last year, fired a three-goal hat trick, and defenseman Stapleton, surprisingly the league's leading scorer, added a goal and four assists as the Chicago Black Hawks crushed Minnesot 10-4.

Dorey, meanwhile, was at work with his fists. The rookie defenseman of the Toronto Maple Leafs set an NHL record with 38 minutes in penalties during a wild 2-2 tie with Pittsburgh.

Elsewhere, Montreal rallied to beat St. Louis 4-2 in the first rematch of last season's Stanley Cup finalists, New York downed Philadelphia 3-1 and Boston edged Oakland 2-1.

In coasting to their third straight triumph, the Black Hawks stunned Minnesota goalie Cesare Maniago with a five-goal barrage in the first period. Dennis Hull and Pappin got two each and Stan Mikita one. Pappin netted his third tally in the second period.

Mike Walton's goal with just over five minutes to play gained Toronto its tie but the high spot of the game was a second-period brawl among Dorey, Toronto goalie Al Smith and Pittsburgh's Ken Schinkel, Keith McCreary and John Arbour.

Dorey, who earlier picked up three minor penalties, was given two minutes for high sticking, two five-minute majors for fighting, an automatic 10-minute misconduct penalty and a game misconduct, which counts as 10 minutes.

The old mark of 37 minutes was set Oct. 19, 1960, by Reg Fleming, then with Chicago.

St. Louis goalie Jacques Plante, a former Montreal star, held the Canadiens off for 48 minutes but third-period goals by John Ferguson, Yvan Cournoyer and Jacques Lemaire enabled the Flying Frenchmen to overcome a 2-1 deficit.

Goalie Doug Favell of Philadelphia was sensational for 30 minutes before New York broke through with goals by Rod Gilbert, Bob Nevin and Jean Ratelle for Coach Boom Boom Geoffrion's first victory.

Boston built a 2-0 lead in gaining its third straight victory and then withstood an Oakland comeback. Eddie Shack and Johnny Bucyk produced the Bruins' goals before Ted Hampson scored for the Seals late in the second period.

Atlanta Loses Opener

Monroe, Unseld Lead Bullets Over Pistons

By The Associated Press

Earl "The Pearl" Monroe, last season's Rookie of the Year, scored 28 points—seven in a two-minute stretch—as the Baltimore Bullets built up a 109-100 lead en route to a 124-116 victory over Detroit in a National Basketball Association opener Wednesday night.

And in Westley Unseld, the Bullets might have found a badly needed center. The rookie from Louisville, the Bullets' top draft choice, grabbed 22 rebounds and contributed eight points.

In other action, Cincinnati topped Atlanta 125-110 and Chicago downed the new Milwaukee Bucks 89-84.

Gus Johnson and Bob Ferry also played important roles in Baltimore's victory. Johnson scored 20 of his 29 points in the first half, and Ferry came off the bench to score 13 in the second half. As usual, Dave Bing was the key man for Detroit, scoring 39 points and getting eight assists.

Cincinnati's Oscar Robertson was held to four points in the first half, but the Big O broke loose for 16 in the third quarter to break open a close game and lead the Royals to victory. Robertson and Connie Dierking led the Royals with 24 points. Lou Hudson topped Atlanta with 23.

Chicago made its record 2-0 and ruined Milwaukee's debut behind the 23-point performance of Flynn Robinson. Milwaukee held a 47-46 halftime lead, but Chicago pulled ahead to stay in the third period. Guy Rodgers led Milwaukee with 16 points.

N. Dakota St. Gains On San Diego State

San Diego State, The Associated Press' No. 1 small college team, is looking ahead to Los Angeles—and, at the same time, keeping an eye on Grand Forks, N.D.

The Aztecs, 4-0, who topped the weekly poll Wednesday in balloting by a regional panel of 15 sports writers and broadcasters, play against Los Angeles State Saturday. North Dakota State, a close second in the poll, will be going to Grand Forks to play North Dakota.

San Diego State corraled 10 of the first-place votes and 278 points over-all in the weekly poll. North Dakota State built its 224 points mostly on second-place votes.

Sports Quiz

Here is a sports quiz to test the knowledge of area sports fans.

The quiz will appear in the Review every Thursday, along with the answers to the preceding week's quiz and the names of the people who got the most questions right. Winners will receive two tickets to a Pittsburgh Penguins Hockey game of their choice.

The questions are not meant to be easy and pertain in many cases to what is sometimes called "sports trivia". Answers must be received at the Review by noon on Wednesdays, either in person or by mail.

Jack Vodrey of Park Blvd., the only entry last week, stumbled home with four right answers. He knew that the longest World Series game was Oct. 9, 1916, with Boston edging Brooklyn 2-1 in 14 innings; that the 1956 Olympics in Melbourne, Australia were the only games in the Southern Hemisphere; that a statue of Finn track great Paavo Nurmi stands outside the Olympic stadium in Helsinki, and that Nate Brooks, in 1952, was the last U.S. Olympic flyweight boxing champion.

He did not know that Clarence Mitchell hit into the only unassisted triple play in World Series history; that an American named Loriz got a car ride in the 1904 Olympics in St. Louis; that Rome was assigned the 1908 games but refused the priveledge; that Bill Russel, who played on the U.S. Olympic basketbal team, once high-jumped 6-9¼; that Bob Kurland, William Houghland and Burdette Haldorson played on two different U.S. Olympic basketbal teams; or that the U.S. beat Canada 18-8 in the first final Olympic basketball game in 1936.

This weeks questions:

1. Who was the only American to win an individual Olympic medal in cycling?
2. Who were the two Americans to win individual Olympic fencing medals?
3. India has won the Olympic Field Hockey event every year but one since 1920. Who won the year India lost?
4. What U.S. university has won the most Olympic eight-man crew gold medals?
5. What was last non-European nation to win the Olympic soccer gold medal?
6. What swimmer, who won gold medals the last three Olympics, was kicked off the team for hi-jinks in Tokyo?
7. Who won medals in the men's 800-meter run in both the 1964 and 1968 Olympics?
8. Who won medlas in the men's 10,000-meter run in both the 1964 and 1968 Olympics?
9. Who won the 1,500-meter and 5,000-meter gold medals within 1¼ hours?
10. Who is the only non-American to win a medal of any kind in the 110-meter hurdles since 1936?

Mel Farr Offensive NFL Player

NEW YORK (AP) — In Mel Farr's own book, the day he had against the Chicago Bears Sunday was the best in his brief pro football career.

Farr carried the ball 17 times for 138 yards, caught six passes for 72 yards and scored three touchdowns in the 28-10 victory of the Detroit Lions.

"That," said Farr, "is achievement. That game last year was a waste. Sure, I gained a lot of yards (197 against Minnesota in 1967) but I didn't score and we didn't win."

Farr's performance earned him The Associated Press honors as the offensive player of the week in the National Football League.

Bill Munson hit Farr with a 33-yard scoring pass for one touchdown and the former UCLA star ran over from the nine and one.

As a result of the day's action, Farr ranked third in the rushing race with 345 yards on 75 carries, trailing only Gale Sayers of the Bears and Leroy Kelly of Cleveland. Farr's seven touchdowns (three running and four receiving) made him fourth in scoring with 42 points.

Bob Jacobs Of Wyoming Top Kicker

NEW YORK (AP) — Sophomore Bob Jacobs, Wyoming's talented kicker, is the successor to Jerry DePoyster, who scored more points by kicking than any other player in college football history before graduating last year.

Jacobs is off to a rousing start in an effort to outdo his predecessor. He has 36 kick points in his first five varsity games, according to figures released today by the National College Sports Service. That is eight points more than DePoyster had at the same stage enroute to his record 182 total.

John Riley of Auburn is second with 29—one more than Kenneth Crots of Toledo.

Jerry Levias of Southern Methodist maintained his pass receiving lead with 38 in four games for 568 yards and four touchdowns. Sammy Milner of Mississippi State moved into second place with 32 catches for 411 yards.

Bobby Hall of North Carolina State leads in kickoff returns with 15 for 340 yards, while Jeff Allen of Iowa State has 11 for 336 yards. Larry Alford is the top punt returner with 13 for 274 yards.

Midland Juniors Hand Baden 1st Loss

The Midland Junior High football team won its third game in four starts yesterday, nipping Baden - Economy 14-13 at the losers' field.

Larry Slappy scored both Midland TDs, on runs, with Butch Rosepilar and Mike Smith adding the conversions.

Jeff Fink scored twice for Baden, with Keith Kuraska getting the conversion. Baden-Economy tried a pass following its second TD, but though it was completed, it was short. B-E drove to the Midland 18 as time ran out. It was the first loss for B-E after three wins.

Midland hosts Monaca Wednesday.

By TERRY MARCHAL
The Charleston Gazette

For the first time in three weeks there has been a shuffling among the leaders of the three classes of state high school football.

Sonny Liston Will Fight In Pittsburgh

PITTSBURGH (AP) — Former heavyweight champion Sonny Liston is scheduled to meet an unidentified opponent in a benefit for Pennsylvania's first heart transplant patient, Benolik, a former fight promoter.

"We saw the announcement about Sonny on television," said Mrs. Anolik. "Archie Litman announced there would be a fight while Ben was still in the hospital," she said, "but we didn't know who was going to do the boxing."

Litman, a boxing promoter, said Wednesday the proceeds of the match will go to Anolik, who had Liston on boxing cards at the beginning of the boxer's career.

Midland Teacher Will Participate In Math Session

Sister M. Lamberta, a junior high math teacher at Midland's Presentation Parochial School, will serve as chairman for school exhibits and materials exhibits at the National Council of Teachers of Mathematics conference next Thursday through Oct. 26 at Chatham Center, Pittsburgh.

Sister Lamberta is a standing member of the Council and corresponding secretary of the Mathematics Council of Western Pennsylvania.

Meetings will be conducted on different grade levels, with several being held at the same time. Anyone attending can participate in the level in which they are interested.

Various commercial agencies will display equipment and materials.

One of the most famous food gifts ever sent to the White House was the mammoth 1,600-pound cheese which was sent President Jefferson by a group of Massachusetts admirers. Jefferson accepted it with the provision that the givers permit him to pay for it at 50 per cent more than its market price.

DEEPSTAR 2,000 underseas research vehicle, shown in this artist's sketch, is nearing completion. The new submersible is to be launched late this year and ready for operations in early 1969. At that time, it will be assigned to the Westinghouse Ocean Research Laboratory at San Diego, Calif., where it will be used in research and as a test bed for prototype instrumentation. The submersible is 20 feet long, seven feet wide and capable of carrying two scientists and a pilot to depths of at least 2,000 feet.

YOU AND THE LAW

The fire trucks raced to the scene of the house fire. As they screeched to a halt, firemen began connecting hoses to the nearest water hydrant.

"Hey this hydrant won't work!" one of the firemen yelled. "Where's another one?"

Another hydrant was located, but the fire had now gained headway with unfortunate results. A person trapped in the blazing house suffered fatal injuries.

WHEN THE estate of the person who died in the fire was filed, the administrator said, "I'm going to sue the city for this person's death. If they had kept the fire hydrant in proper repair, the firemen would have been able to save his life."

"You can't sue us. The sovereign immunity doctrine does not permit such an action against the city," was the reply.

Attorneys for the estate filed suit to recover damages. "The city supplies the water to the residents. The fire hydrant system is part of this supply. The city is in a proprietary capacity here, selling the water. Therefore, it is liable for the negligence in permitting a faulty hydrant to exist."

WAS THE claim valid?

In a recent Ohio case, the Supreme Court ruled that a city could be held liable for a wrongful death action in a situation as outlined. In supplying water of which the fire hydrant system is an incidental part, the doctrine of sovereign immunity cannot apply if a death results from the negligence of the municipality to maintain a hydrant in good working order.

Stores Plan Special Sale For Midland

Special promotional sales will be held by Midland's business places next week.

Ed Bishoff, chairman of the Retail Division of the Midland Area Chamber of Commerce, said "Harvest Day" sales will be held Monday through Wednesday.

Cider and doughnuts will be served customers by participating merchants.

Numerous stores are participating and plan to offer special bargains, Bishoff said. Various fall and winter items will be on display.

The Chamber announced arrangements have been made to provide free parking during the promotion.

Color Rendition

DANVERS, Mass. (AP) — Development of a fluorescent bulb providing color rendition nearly identical to that of incandescent bulbs in homes has been announced by Sylvania Electric Products Inc. The new fluorescent bulbs are aimed toward stores and the thought is that clothing, carpet and other fabrics will look the same color to the buyer in the store as after the buyer gets them home.

Midland Teacher Will Participate In Math Session

Sister M. Lamberta, a junior high math teacher at Midland's Presentation Parochial School, will serve as chairman for school exhibits and materials exhibits at the National Council of Teachers of Mathematics conference next Thursday through Oct. 26 at Chatham Center, Pittsburgh.

Sister Lamberta is a standing member of the Council and corresponding secretary of the Mathematics Council of Western Pennsylvania.

Meetings will be conducted on different grade levels, with several being held at the same time. Anyone attending can participate in the level in which they are interested.

Various commercial agencies will display equipment and materials.

One of the most famous food gifts ever sent to the White House was the mammoth 1,600-pound cheese which was sent President Jefferson by a group of Massachusetts admirers. Jefferson accepted it with the provision that the givers permit him to pay for it at 50 per cent more than its market price.

DEEPSTAR 2,000 underseas research vehicle, shown in this artist's sketch, is nearing completion. The new submersible is to be launched late this year and ready for operations in early 1969. At that time, it will be assigned to the Westinghouse Ocean Research Laboratory at San Diego, Calif., where it will be used in research and as a test bed for prototype instrumentation. The submersible is 20 feet long, seven feet wide and capable of carrying two scientists and a pilot to depths of at least 2,000 feet.

YOU AND THE LAW

The fire trucks raced to the scene of the house fire. As they screeched to a halt, firemen began connecting hoses to the nearest water hydrant.

"Hey this hydrant won't work!" one of the firemen yelled. "Where's another one?"

Another hydrant was located, but the fire had now gained headway with unfortunate results. A person trapped in the blazing house suffered fatal injuries.

WHEN THE estate of the person who died in the fire was filed, the administrator said, "I'm going to sue the city for this person's death. If they had kept the fire hydrant in proper repair, the firemen would have been able to save his life."

"You can't sue us. The sovereign immunity doctrine does not permit such an action against the city," was the reply.

Attorneys for the estate filed suit to recover damages. "The city supplies the water to the residents. The fire hydrant system is part of this supply. The city is in a proprietary capacity here, selling the water. Therefore, it is liable for the negligence in permitting a faulty hydrant to exist."

WAS THE claim valid?

In a recent Ohio case, the Supreme Court ruled that a city could be held liable for a wrongful death action in a situation as outlined. In supplying water of which the fire hydrant system is an incidental part, the doctrine of sovereign immunity cannot apply if a death results from the negligence of the municipality to maintain a hydrant in good working order.

Stores Plan Special Sale For Midland

Special promotional sales will be held by Midland's business places next week.

Ed Bishoff, chairman of the Retail Division of the Midland Area Chamber of Commerce, said "Harvest Day" sales will be held Monday through Wednesday.

Cider and doughnuts will be served customers by participating merchants.

Numerous stores are participating and plan to offer special bargains, Bishoff said. Various fall and winter items will be on display.

The Chamber announced arrangements have been made to provide free parking during the promotion.

Color Rendition

DANVERS, Mass. (AP) — Development of a fluorescent bulb providing color rendition nearly identical to that of incandescent bulbs in homes has been announced by Sylvania Electric Products Inc. The new fluorescent bulbs are aimed toward stores and the thought is that clothing, carpet and other fabrics will look the same color to the buyer in the store as after the buyer gets them home.

LINCOLN MERCURY

LEADS THE WAY . . .
IN EVERY WAY!

Marquis is luxury

From the makers of Continental Mark III, is a totally different look in medium-priced cars. A luxury car in the classic sense. Uniquely spacious, dramatically elegant, majestically beautiful. A great road car — with a commanding 429-cubic inch V-8 standard, mated with select-shift automatic drive. Shown here is the Marquis 2 dr. coupe with concealed headlamps, full-width taillamps, smart new ventless side windows, distinctive Brougham crest, and vinyl roof.

Marauder's got you-coming and going!

Here is sports car action that everyone can get in on — a high-spirited hardtop roomy enough for six and luxurious enough for the most demanding. The all new, all exciting Marauder. Its long-hood, short-deck design on a snug 121" wheelbase gives you the ride, the feel, the sweet, sure handling of an authentic sports machine. Its tunnel fast-back styling gives you the look of right now. Standard Marauder features include the velvety 390 V-8 with 3-speed manual transmission, concealed headlamps, unique taillamps, front side marker lamps, dual paint stripes. The cloth-and-vinyl interior offers luxurious comfort and convenience.

Continental and Mark III . . .

Junior Editors Quiz on STARS

QUESTION: *Why do some stars seem to twinkle and others do not?*

* * * *

ANSWER: When we look into the clear, night sky, we see glittering points of light. Although they look much alike, they are actually coming from different parts of space. What is called interstellar space begins about 50 billion miles from the earth. It is there that the true stars are located, each shining by its own light, as does our sun. We see a few other pinpoints of light, however, coming from objects very much nearer, located in interplanetary space, between one million and 50 billion miles from the earth. These are not true stars, but the planets of our solar system, shining not by their own light, but by that reflected from the sun. Our earth is surrounded by different layers of atmosphere which move over each other. Because of the enormous distance, the glow coming to us from a true star is only a very thin pencil of light. As it enters our atmosphere, this light is wobbled back and forth and appears to twinkle. But light from planets comes from a much shorter distance. This beam is so much stronger that the layers of atmosphere do not affect it. A planet thus shines steadily, without twinkling.
